ADV. UDAIVEER SINGH BINDRA

Managing Director Global Empire Events & BizNation TV

Meri aaj ke yuvao se aaj ki young generation se ek appeal hai jo Swami Vivekananda ji keh gaye the. "Utho Jago aur tab tak mat ruko, jab tak manzil na prapt hojaye" the youth today has enough knowledge to do the right things they need to do for themselves, the only thing stopping us is the first step, take the first step and you will be half way there.

Whenever I am on the Platform of Global Empire Events or I write for the Magazine I always mention a Quote which goes like this "Vasudev

Kutambakam" which means the world is a big family & as we have gathered under this platform I'll urge everyone of you to clap for yourselves for your achievements, accomplishments & hardwork.

I'll share a story of How Global Empire Events started & a story of how i think a brand can be built from my perspective. BizNation TV was started before Global Empire Events was even thought of BizNation TV was started as a digital marketing agency back in my hometown Ludhiana Punjab, which was struggling to make a name as it was a digital marketing boom in 2020 and there was a lot of competition. Initially I gathered clients through advertising on Facebook and Instagram but the result was not very sustaining. Being a firm believer of change and being dynamic I then introduced doing video podcasts on BizNation TV with our existing business clients where they started sharing there entrepreneurial journeys, it was something interesting, New & something different from what how people were doing digital marketing. Now we were not only doing digital marketing, we were also promoting Entrepreneurship and Education based individuals through our platforms. BizNationTV started to build its name in the market, but the spark was lacking.

Then we thought why not create a platform where we don't just have one Entrepreneur or Educators but, 100, 200, 300 Educators and a huge networking platform and here we are today conceptualizing events under Global Empire Events seeing visionary leaders.

Talking about BizNation TV, it's the backbone of Global Empire Events all the designing to the digital marketing, anything and everything is being done in House today.

So I'll just say if you have any digital marketing needs - get in touch with us on BizNation TV with all our digital marketing services one call away from you.

DR. NEERAJ A SHARMA

HONORARY CONSUL GENERAL OF THE REPUBLIC OF
PALAU TO INDIA

A prodigy of second generation in business. An experienced Mentor in fields of Automobiles, International Relations, Public administration , Higher Education , Information Technology & Hospitality has been on the advisory board of many organisations .

Having mastered the art of Start ups even before the jargon created buzz, Mr. Neeraj has successfully established many

companies in India. His " Go alongwith the team & One partner only " approach is his signature style in business .

As a true visionary leader , he is looked upon by many as a guide and philiospher whos presence vibrates positivity.He strongly believes that professional Education has to move out of the conventional classrooms and should be practised on the job floor.

A man on constant move, fondly known as "Guru" in the Entrepreneur circles , Dr. Neeraj Sharma is also the Honorary Consul General of the Republic of Palau in India. In his tenure the bilateral & friendly relations between India & Palau have only got stronger . Under the leadership and vision the President of The Republic of Palau , His Excellency Surangel Whipps Jr., Dr. Neeraj is striving to make Palau the Knowledge and Technology gateway to the Oceania.

MR. K.L. GANJU

O.C.V.C. (CDR.) CONSUL GENERAL (HY.) ADVISOR TO THE FOREIGN MINISTER UNION OF COMOROS
PRESIDENT: HONY. CONSULAR CORPS DIPLOMATIQUE – INDIA

Mr. K.L. Ganju a businessman by profession became the Consul General (Hy.) of the Union of Comoros in the year 2005. The gazette notification for his appointment was issued by Govt. of India on 10 January, 2005. Mr. Ganju at the initial stage of his life had to abandon his education to stand by his father at the time of crises in the family. But he was determined to make a mark in his life. At the age of 19 years he started a small business which grew steadily. He continued his struggle and achieved his desired goals. He married Dr. Gurdeep Kaur and started living happily. He has two daughters. After giving good education to them, he got them married. Right from the beginning of his life he was devoted towards helping the under-privileged, he continued to give education to the poor children and helping getting married the daughters of the poor families. Apart from this, he was instrumental in collecting funds for the Indian Spinal Injury Center which is today one of the best Spinal Injuries Hospital in India. For this effort, he collaborated with Maj. H.P.S. Ahluwalia (the Everest Hero). But the zeal to do something special continued. In the year 2004 he was offered to become the Consul General (Hy.) of the Union of Comoros in India. Initially he declined this offer, but ultimately due to some good friends he agreed to take the responsibility. After assuming the charge of the Consul General (Hy.) he realized that this is the best way to help the needy people wherever they are and also promote good bilateral relations between India and Union of Comoros. He established Embassy like Hony. Consulate in

New Delhi and started working. He realized that there is no traffic of people from Union of Comoros to India either for education, medical treatment or business. He used his skill to convince the people and Govt. of the Union of Comoros to send their patients for medical treatment to India which has good medical facilities available at a reasonable price. He also convinced the students of Union of Comoros to come to India for education. Though Union of Comoros is a francophone country still students came to India, learnt English and thereafter completed their graduation, post-graduation and also some of them did doctorate. The biggest satisfaction which came to Mr. Ganju was when serious patients started coming to India for treatment. During the course of their treatment it gave Mr. Ganju opportunity to serve them, help them at the time of need. This also includes, sometimes, giving family blood to the patients at the time of operation. This action of Mr. Ganju became talk of the town in the diplomatic community in Delhi and people in Comoros. This service of Mr. Ganju continued and is still on. Having achieved to serve the people of Comoros, Mr. Ganju also played an important role in promoting bilateral relations between India and Union of Comoros. Today the bilateral relations between the two countries are its best. Mr. Ganju is proud of his achievements and in the process he published a book titled "The Golden Decade 2005-15, My life as Hony. Consul General". During the printing of the book, the comments Mr. Ganju received from dignitaries including Hon'ble President of the Union of Comoros are remarkable and satisfying. Some of the comments are mentioned below: Hon'ble President of the Union of Comoros wrote I quote "So I am glad to say that during this decade, thanks to the tireless efforts of Mr. Ganju, there has been much improvement in Indo-Comorian relations, whether in terms of high level visits, economic interaction or people to people contact." Unquote Hon'ble Foreign Minister of the Union of Comoros wrote I quote "Talking about his experience as Honorary Consul General of the Union of the Comoros is an important contribution that I greet with respect. It is a testimony and teaching. Diplomat by heart, Mr. Ganju will always surprise us and amaze us. His journey is a life lesson. His life, he devoted to others. My country is proud to count on a man with great human qualities, a man of great talent who knows how to open himself to others." Unquote Hon'ble Mr. Idriss Raoua Quedraogo, Ambassador of Burkina Faso in India wrote I quote "His achievement as Hony. Consul General is like a pilgrimage, where he has invested a lot of dedication, selfless service, humility and fraternity to deepen the concept of Diplomacy. As a young envoy of Africa, I feel very proud and honored to have crossed paths with Mr. K.L. Ganju." Unquote. There are many other messages which were received from different Ambassadors, High Commissioners, Dr. G.V.G. Krishnamurty, Former Election Commissioner of India and other dignitaries. For this extraordinary humanitarian work through diplomacy and also developing excellent bilateral relations between India and Comoros,

Mr. Ganju was awarded two highest civilian decorations by the Hon'ble President of Union of Comoros.

1. "Order of the Green Crescent of Comoros" – Officer Grade
2. "Order of the Green Crescent of Comoros" and was raised to the level of "COMMANDER". This is the highest civilian decoration of the Union of Comoros.

Apart from the above Mr. Ganju has received the following awards:

1. Gusi Peace Prize, citation of which is signed by the Hon'ble President of Philippines. He is the 7 Indian to receive this award.
2. Pride of India leadership award from Kent, United Kingdom.
3. "Gold Medal" by Amity International University, Noida.

Apart from the above he has received many other National and International Awards.

Sahithi is used to leading change, delivering results, and building very engaged teams with good spirits. Her communication and leadership styles are distinguished by her energetic and inspirational approach. The composure and straightforwardness that she maintains are something that everyone can learn from and look up to. Dr. Sahithi Kondapalli skills in management and leadership are top-notch, and she has always been able to motivate her team to achieve great results.

VVARSHARANI

"We get life only once. Its beautiful, do what you love the most, what inspire most, and trust me every moment of this life is worth leaving. I realized this when I was diagnosed with cancer at the age of 19 completing my graduation. I come from a middle-class farmer family from a small village in Kolhapur. We all take things for granted in life, and "life" is one of them. I realized its value...when I was going through Chemotherapy myself and seeing people like me struggling for life while I was hospitalized. I was going through a very challenging phase but did not stop my studies and successfully completed my degree in Bachelor of Science.

As I was coming back to life, and with god's grace, finally I tied the knot with my love and we settled down in Pune. As you all are aware Pune is a big city, also known as one of the biggest IT hubs of India. With life coming back on track now, I started thinking about my career. Although, I was new in the City and I came from a small village, I always wanted to do something on my own. I never wanted to do the 9-5 job as others but something different...at that time I was not sure what I'll be doing exactly, but was very sure I'll be try to do something different than others.

Finally, I decided to do something in Information Technologies and first step I took towards it was to do a course of Web Designing and started my career as a Web Designer. I was full-time freelancer in web designing and slowly started getting projects through bidding websites and LinkedIn Network. I learned to manage so many things on my own. Few years later I became a Mother of a Son (who brought whole new happiness in our

lives) and during this period of maternity break, I decided to continue my education and completed my Post-Graduation /master's degree(MBA) in Information Technologies. Long term dream was fulfilled, and it was immense pleasure, a sense of achievement.

Life was going good and I was happy, you can say it was perfect life for me - like settling down in PUNE, graduating in the field which I wanted, started own business as a freelancer, since my school days I always dreamt of starting something of my own, building something that I can put my sweat and blood into.

"But life is never a fairy tale... right? We can say it is incomplete without ups and downs. But there is only one formula to keep going that is ACCEPT IT, FACE IT AND FIGHT FOR IT!!"

Everything was going well as planned and was perfect for me, and then "LIFE" Life took a sharp turn, turn which literally shakes you up... awake you from your dreams. Sometimes we just can't imagine what destiny is going to put us in.

After 9 years, I was again diagnosed with same scary, cruel, Cancer. When I thought it was going all planned, it was recurrence of that same disease. I have never thought it will return like this and at this phase of life. But we can't predict our life future, life is not always Roses and Rainbows. was traumatized and devastated by this unexpected news. My husband and entire family was in shock. It felt like Life was completely changed for me in a moment, from heaven to Misery. But yes, I am lucky to have such understanding and supportive family. My husband and my family were my strongest pillar during this extremely painful and tough phase, without them being there for me, I wouldn't have survived and stood up again. This phase of life and my journey through motherhood made me much more stronger than before.

After recovering, Slowly and steadily I have again started my work (with same passion!) and met many people through networking and established successful virtual team. We worked together, took efforts, and delivered many web and mobile applications successfully during COVID. Exactly in this way with lot of efforts and along with expert professionals, we have built "Digital Techists Consulting"- My Dream Team.

Being an entrepreneur, the journey from "starting as a freelancer to have my own successful team" was not easy. But as Dag Hammarskjold said, "We are not permitted to choose the frame of our destiny. But what we put into it is ours".

Quality is the most important aspect in business Our focus has been on it from day one. With quality services and honesty in the working structure, we are now one of the highly recommended Digital Marketing Services provider in Pune. We have expert professional team, also we are expanding our services range day by day Like SEO, SMO, Ads, Campaigns, and much more.

As we work in IT field, every day is a new learning and experience, this approach has helped us to deliver modern solutions to our beloved clients. We must honour commitment, customer satisfaction and along with strategic approach.

We aim to provide digital presence to small and mid-scale businesses so that they can be benefitted from the digital marketing advantages for their businesses; especially for women who run their own small businesses, either product-based or services-based. That's what our Brand say "We make Business Digitization"- A complete branding strategy-based services.

Digital Techists Consulting always aim to provide transparent business deals and we believe customer satisfaction is the key to success. We can grow by helping each other and by learning new things.

Simply we believe that You have an entire world to rule on your fingertips, when you have your Digital presence in terms of Websites and Social Media Pages. So, get ready to thrive with this Superpower and grow with us.

"Ignoring Digital marketing is like opening a business but not telling anyone."

So, Keep Learning, Keep Growing, Keep Digitizing!!!

Grateful for this wonderful Life and opportunities life has given me.

ADV. KASHITJA

Known as a Fierce lady lawyer who is a doctorate in Constitutional law and Human Rights and a hardcore social advocate of women's rights in India. Dr Kshitija Wadatkar moves in and out of Top corporate circles in India – as the founder and lead partner of M/s Kshitija Wadatkar & Associates, she has handled several high-profile cases, such as representing Zerodha COO in the #metoo movement, Shilpa Shetty defamation case and so on. She represents topmost companies like Shapoorji Palonji, Lodha and Adani's. But not many know the remarkable journey of a girl who started out with just her exceptional brain and no privileges and achieved what she did with grit, intelligence and hard work.

This small-town girl came 14 years back in the time with one briefcase in Mumbai to Practice at the Principal Bench of the Bombay High Court. As she had no reference she needed to work under the criminal lawyer of the Bombay High Court who selected her on basis of her gold medals and merits. She started her journey with a 5000 rs stipend. Shortly a bright lady lawyer got selected for a top-tier law firm whereby she got extensive experience working for eminent corporate houses in the country. She learned the nuances of corporate laws. In 2015 she took a risk of starting her law firm with her entrepreneurial spirit and since then she never looked back.

Her journey as a lawyer has been an inspiring one, and she has grown in the strict environment of her professor's parents who always impacted her mindset for principles of integrity in professional life. Her learnings gathered over the years and her outstanding academics, she says. Advising a client through a crisis or a high-stake contentious matter sharpened her instincts and ability to strategise, and advising on transactions tested her skills to negotiate and arrive at a consensus. She also learnt to be patient yet firm, tactful yet commercially adept. "Whether you're in a courtroom or corporate room, two big learnings would be that a successful output can never be found based on 'my way or the highway and that there's rarely ever a slam-dunk.

I never underestimate that someone's reputation and life are in my hands, and I must do my best to safeguard it," she explains. She plays a pivotal role in strategising complicated legal matters and getting them settled. Her leadership champions the disposal rate with positive outcomes. The very result is she grabbed top corporate houses. Presently she is representing top corporate houses of the country in their corporate matters at NCLT, High Court, and almost all courts of Maharashtra. She has her brand name in economic offence cases, and criminal and corporate matters. Currently, she is a standing counsel for the UNION OF INDIA representing cases for banking frauds, anti-corruption, and Economic Offences for CBI and E.D with her strong understanding of money laundering, the passport act, and criminal procedure.

Dr Kshitija is passionate about gender issues and women's rights in India. As a part of her legal awareness for women she frequently gets invited to leading institutions of the country for expert lectures on women's laws and woman empowerment. She is an acclaimed speaker and hence got invited to National level Law Festivals as a Chief Guest.

She is a member of the International Law Firm (Global Business Lawyers League) which works globally in commercial legal issues. "I observe and learn from other great judges and lawyers and the things they do differently during their work and draw great influence from it. I think the key is to never really stop learning," she says. PhD in constitutional law and human rights, Her future goals include writing a book on women's laws and making legal education more accessible to anyone and everyone who needs to apply it in their professional lives. She offers pro bono legal services to distressed women. A poet by heart Dr Kshitija is a popular sociopolitical writer whose articles frequently get published in the leading newspaper of the country. During the pandemic whoever criticised the MVA government in Maharashtra, the jail become the norm, in those times to increase the awareness of the law on arrest for Suo moto advocates team of Maharashtra, she conducted various seminars/webinars and workshops to increase the morale of the advocates who pursue rights of arrested individuals.

ANAMIKA BANERJEE

Ms. Anamika Banerjee is a senior executive of Honda (two wheeler) Sales and Marketing department. She is the most favorite executive to the customer mainly lady customers, because she can make them feel comfortable with her polite and familiar behavior. According to her voice, in our society we claim, we are very modern and give equality to women, but the real scenario is different. A wife still has to give priority to her husband's opinion, whether it's a scooty

or a saree.

She also raise her voice against the determination of the girls in their menstrual cycle. She is against in the mentality of the society when a girl/lady purchases a sanitary napkin from any medical store, it must be wrapped with a paper. It's not a matter to be ashamed, proud because the girl is in the process to be a mother, the best gift by the God to women.

Anamika is a animal lover. She is the voice of the speechless. "My hubby advices me to open a Zoo"- she enjoyed this opinion. She is proud to have the main support of her husband and daughter.

She is an achiever, but she is not at all satisfied, She said," Abhi to bahut kaam baki hai". "Jago Tumi Jago, Hey Durga, Hey Shakti, Hey Nari, Hey Maaa- Tumi Jago".

DIVYA SISTLA

MD AYURVEDA MEDICINE
N.D.D.Y.
Ph.D. ASTROLOGY AND VASTU

Dr. Inderjit kaur is an AYURVEDA ACHARYA who is practicing in Ayurveda medicines since 1995.

She is founder of a manufacturing unit with name of **Pious Ayurveda**. Her motive is to provide pure and pious herbal combinations to ailing people. She customises formulations for chronic ailments according to the nature of the patient.

Her motive is to take people back to nature. She works to make people understand the power of the universal energies and guides how to live in harmony with these five elements/energies, so that everyone can stay healthy. She uses these energies to heal the chronic ailments.

She considers her grandmother and father as her gurus, as in childhood she used to listen from them that a human being (mitti ka putla) should be polite, honest and without ego as it is a combination of merely PANCH MAHABHOOT (FIVE ELEMENTS) and in the end has to disperse in these five elements only. That BHOOT word got all her attention and a seed was sown in the fertile land of the brain of a child, which grew to a Banyan tree having branches or Ariel roots of all Vedic sciences describing the various meaning of these five elements (bhoots).

Ayurveda is mainly supported by three pillars known as Vata, Pitta and Kapha,

which are further the combination of five elements that are SPACE (AKASH), AIR (VAYU), FIRE (AGNI), WATER (JAL) and EARTH (PRITHVI) in different ratios. The difference in ratio gives rise to different nature to every individual, but how?

It became the base of her research as she wanted to know the basics. She explored every factor behind the combinations of these elements and role of cosmos, planets and time in this constitution. For better understanding of these five elements she explored every Vedic science like ASTROLOGY, VASTU, NUMEROLOGY and YOGA as well as modern science of ASTRONOMY. She did her Doctorate of research in knowing the relationship of human body with planets as well as with ten directions of the universe. Her knowledge is based on the fundamental rules of the cosmos. Her field of expertise is feeling the rhythm of human pulse at 7 deep levels, not just counting the pulse rate. The blood flows in a particular rhythm according to the nature of that person, creating vibrations in the arteries and veins, which is felt by keeping three fingers on the superficial artery in the body mainly at the radial artery. This rhythm of the pulse gives us information about the movements of Tridosh: Vata, Pitta, Kapha in body. The rhythm of pulse is affected by our nature, thoughts, mind-set, status of seven chakra and physiological actions, accordingly every person emit a different type of electric current in the body, which further affects the flow of blood, which is felt. The rhythm of the pulse changes with every little change in and around us.

She is a member of various prestigious institutions. She is PRESIDENT NIMA (National Integrated Medical Association), PANCHKULA, VICE PRESIDENT NIMA (National Integrated Medical Association), CHANDIGARH, VICE CHAIRMAN OF IAF (International Astrology federation) (PUNJAB REGION), BRAND AMBASSADOR OF JYOTISH PRANGAN.

She has received so many accolades at national and international level. She has been awarded by HONOURABLE SHRIPAD YESSO NAIK JI, MINISTER OF AYURVEDA for her patent product PIOUS ELEMENTS as INNOVATIVE PRODUCT OF THE YEAR, which is for creating a healthy Aura. She has been awarded with the PRESTIGIOUS STATE DHANWANTRY AWARD 2018, BY

PUNJAB AYURVEDA DEPARTMENT. She has been honoured with a title of "QUEEN OF ASTRO AYURVEDA" at Egypt and GLOBAL SYNERGY AWARD at INDONESIA for her contribution in field of Ayurveda and Astrological sciences. Appreciated by HONOURABLE SHRI KAPTAN SINGH SOLANKI JI, GOVERNOR, HARYANA for her social services. Awarded by UDGAM 'WOMAN ACHIEVER' award by Udgam Trust, Ahmedabad and by MIRAL FOUNDATION for her book on GARBHADHAAN PROCESS.

Dr. Inderjit believes that the hardwork she has done in all these years should benefit the society and want to pass it on to the coming generations, so She keeps on writing her research article in International Journal of Ayurveda. She has written six books so far:

- CUSTOMIZE YOUR CHILD (GARBHADHAAN ... A pious phenomenon)

The BOOK deals with precautions the parents should take care while planning the pregnancy; it can reduce 50% problems of the children for sure.

- SAVE YOUR HEADMASTER

Which is totally based on the research and study on the patients, how the brain and body gets affected by the electromagnetic radiations of mobiles and other gadgets, along with remedies and precautions.

- HEALTHY LIVING WITH DIABETES

Tips to control your blood sugar levels and precautions to prevent neuropathy ailments.

- CORONA : THE VIRUS WITH A CROWN

Reasons why corona became pandemic, its mode of action on body and lessons we should learn from this virus.

- CHAKRA FREQUENCIES AND DISEASES

How low and excess energy of a particular chakra create diseases.

- VASTU AND DISEASES

How disturbed flow of energies create diseases related to that particular direction.

Books are available on their site: www.piousayurveda.com.

ALWAYS IN SERVICE OF HUMANITY.....

FAHEEM UN NISA

Trainer, manager, mentor and advocacy enthusiast Faheem un Nisa, variously called Faheem or Nisa, by friends and colleagues, is all rolled into one. A postgraduate in English literature, an MBA, and a technically trained vocational trainer, Faheem has seen many roles in her young life. Presently overseeing a large program in Learnnet Skills Jammu & Kashmir Region that seeks to empower unemployed educated youth with skills that provide them meaningful employment, Faheem is a roller coaster manager often seen trouble shooting varied fare of problems. Faheem manages a team of over sixty trainers, community engagement executives, placement coordinators and other staff involved in training around 500 students at any given point of time. This is a gigantic adult training responsibility under implementation in that beleaguered of places called Kashmir.

Faheem started her career as a community engagement executive to reach out to the left-out sections of the society in the remotest places in Kashmir under a government program. This was a calling like no other. Faheem saw and felt first-hand the want and indigence, oppression, and wanton denial of hope

to girls and the obduracy of a society still mired in the ancient myths. Faheem made it a mission to advocate the value of education, necessity and payoffs of a skilled job and the importance of greater assimilation in the larger Indian culture. Despite many hurdles and barbs, she persisted. This paid off handsomely.

Faheem is a trainer par excellence and spent a few years as a trainer before she took up skills related staff assignments to receive a thorough grounding to understand the skills ecosystem bottoms up for the skills ecosystem is very intricately woven around challenging operating procedures. Having done a good job at the staff, Faheem was promoted to supervise the implementation of a large and important skills program in Jammu & Kashmir called Udaan crafted by Government of India to train graduate unemployed students. It was a tough task, which Faheem discharged with poise and distinction.

Presently Faheem is a Manager with Learnnet Skills in Jammu & Kashmir looking after project Himayat and Prime Minister's Kaushal Vikas Yojana, India's flagship schemes to bridge the poverty-unemployment gap to empower families and the society.

Essentially a dreamer, in her spare time Faheem dabbles in Urdu poetry and English literature. Pablo Neruda and Garcia Marquez often grace her table. Ghalib, Iqbal, and Momin are household appurtenances in almost every Kashmiri's home; Faheem is no exception. A devout Muslim, Faheem is a down to earth person, utilizing her spare time mentoring students and clutches of refugees strewn around lower Trikuta Heights in Jammu. Asked to describe herself, Faheem would often hum Helen Laurie...

" How often I have been put to test
to make the best of the second-best;
Only to wake one day and see,
that second-best is BEST for me."

LEENA SINGH

AL is one of the oldest, first wave Indian luxury brands of the country and has been in the business of designer wear for the last thirty years. The brand is headed by Leena Singh who was also instrumental in the contribution to set up FDCI with her contemporaries in 1998 and has served on its board for many years. The brand's philosophy had always been to remain a Limited Edition Brand and in this way it carved a niche for itself in the Indian as well as the international market.

AL has always been an exclusive, high profile brand that has never resorted to revised pricing or end of season sales. The brand has to its credit more than three hundred shows all over the world showcasing both – Indian couture and Indian inspired luxury pret.

It has its flagship at DLF Emporio. While AL is proud to reproduce and preserve the finest techniques of couture embroideries, its forte has come to be fusion which has a larger potential in India and in the global markets. AL's famed prints in luxe fabrics and cutting edge designs are most sought after and are sell outs the moment they hit the rack. AL prints have a unique signature style with an international standard and undying demand. AL prints can be used across a varied array of products apart from just women's fashion and accessories.

AL's colour palettes and signature styles are key trend setters and have been a rage in fashion Industry for decades. AL's legacy of 30 years has a huge, unlimited documented design bank and above all the experience of Leena Singh in various fields of design in retailing and designing.

INDIAN LUXURY
(ASHIMA - LEENA)

NEHA BORA

She says- ' I am a believer of fate but that has never stopped me from putting in my utmost effort and hard work into all the things that I do. I live and walk with a quote that "You never fail until you stop trying." We have one life and WE SHOULD BE ALL THAT WE CAN BE.'

PRIYA BHALLA

"A woman of impact."

She started working as a counselor at a private institute to make money for her family, all of a sudden life and her inner self gives her a wake-up call and she realizes that she has to work extremely hard to make it happen for her and her family.

Priya Bhalla's meteoric rise and success has been charted by the industry and business journal.

Her roots are from an educated family where the girls are taught that success and career are not gender-biased.

Her parents were her role model and looking up to them she also wanted to create her mark in this world and always wanted to contribute her skills for the betterment of her country. Excelling in everything she did, she made all her family and friends proud, But life had other plans for her, due to arduous circumstances in her life she had to get married. But being married was not the end of her ambitious life, but rather the start of everything she wanted to do in life. Her Inlaws supported her and her Husband Mr. Sanjay Bhalla gave her wings to fly. She continued with her studies and made her career in the automobile industry where all her skills shined brighter than she could have imagined. She contributed 14 years of hard work, diligence, and punctuality to this industry where her creative and distinctive ideas set her apart from the crowd. She knew exactly where she was headed and she never once lost faith in herself. This strong-headedness of hers made her what she is today and makes her an inspiration for all women to never lose faith in their life and work hard for their dreams so that they come true in the most beautiful way possible! True to form,

On her packed agenda sits the mission to help India own a carbon emission-free country. With decades worth of c-suite experience, she always believed in the power of persistence and continued to reach out to solve some major challenges like last mile connectivity, pollution, excessive use of non-renewable resources, unemployment, etc. With Supreme Smart Power Pvt. Ltd. She is addressing all these issues & providing the latest technology along with innovative design. She is very promising when it comes to providing maximum value for the products to customers.

Here she proves -Power is not given you have to take it by your dedication and hard work.

RANNI KAMAL

Ranni Makar Singh was born Ranni Kamal Kaur Patheja in 1987 on the 13th of October to Hara Singh and Inderjit Kaur in the bustling city of Rangoon, Burma. Her family had a flourishing hospitality business in Yangon, until civil unrest tore the peaceful nation apart. Ranni travelled with her family to Nepal where they spent three years and tried to rebuild their lives. When Ranni was ten years old the family moved to Kolkata, the city of joy and painstakingly built a new beginning and a flourishing hospitality business. The journeys, the eclectic mix of cultures and the arduous rebuilding shaped young Ranni's outlook and ... At Kolkata, Ranni read at the La Martinere for girls and completed her Bachelors in Commerce successfully after which she did an International Diploma in

Beauty under the guidance of Shehnaz Hussain. At the age of 20 she was ready for a new journey which defines her today.

In 1987 Ranni arrived in Andamans as the young bride of Kulmohan Singh whose family, is amongst the pioneers of hospitality industry in Andamans. As a wife and mother Ranni was busy bringing up two precocious children Tanveer and Jaikar. But the family's hotels kept the hotelier in Ranni alive, and the day life decided that it was time for Ranni to undertake yet another journey she was ready for it. Kulmohan's untimely demise, shattered their blissful life and the turbulence it left in its wake was cataclysmic. Ranni, ----- by her journeys and rebuilding stood up to the challenge and rebuilt the Symphony group of Resorts from the tragedy which struck her family. The resorts reflect her taste in art and beauty while being efficient and warm. Along with the first hotel the family started in Port Blair, Shompen, which was followed by The Palms in Havelock, The Summer Sand Beach Resort and Spa was added to the bouquet and in 2021 just before Covid, the flagship property the spanking new Symphony Samudra in Chidiya Tapu was thrown open to the public.

Just as life settled back to normal, Covid brought in another disruption and another saga of rebuilding. After ensuring that the staff was safely sent back, Ranni and family spent time at Chidiya Tapu, on the family's farms. The lockdowns were a time of self-discovery and cathartic. The result was Sunyaarran: the wellness jewellery collection and Andamanica Naturalss, an organic beauty line, prepared solely from organic produce from Symphony Farms at Chidiya Tapu. Her time with Shehnaz Hussain helped her immensely to craft these unique liniments and ----

The journey today is crowned by the Tanishq jewellery in Port Blair at Middle Point.

RUPAM

A progressive social reformer and activist, Rupam was on the frontline of women's empowerment and social activities. She was recognised for her enormous contribution during the COVID-19 pandemic by municipal cooperation Nagpur, women and child development, district legal authority services Nagpur, and the annual global summit 2020. She has completed her higher education in MA LLB from Patna University, Bihar.

Since childhood, she has been involved in community services and has had a strong vision and desire to help others enhance their livelihood. So, to accomplish this, she started an NGO, Mudraas Charitable Trust, in the year 2018. Mudraas Charitable Trust is currently working in Dharamshala (Himachal Pradesh) and Nagpur (Maharashtra) in various activities which include helping needy, victimised, exploited, and orphan women stand on their feet by educating them, encouraging them, and preparing them to solve problems. She's helping minor boys and girls in juvenile homes by providing vocational training to them and making them job-ready. In Dharamshala, under one roof, she brings all the underprivileged women and teaches them all the handloom activities, which are making shawls and sweaters to provide employability. Recently, she has provided training to such women and ensured their safety under her observation. In Nagpur, the immoral traffic (prevention) Act 1956 states that any person who keeps or manages or acts or assists in the keeping or management of

a brothel shall be punishable on first conviction with rigorous imprisonment for a term of not less than one year and not more than three years, as well as a fine of up to two thousand rupees. The Juvenile Justice (Care and Protection of Children) Act 2015, which is an act to consolidate and amend the law relating to children alleged to be in conflict with the law and children in need of care and protection, by adopting a child-friendly approach in the adjudication, she educates minors and also provides vocational training to them in juvenile homes and makes them job-ready, through which they will be least involved in illegal activities and will be able to work skilfully, and they can also help their families through financial support. The organisation has constructed more than 1200 shelter homes for migrant workers with the help of Nagpur Municipal Cooperation. These migrant workers were being taught basic household activities like stitching paper bags, doormats, and handloom activities so that they would not be a liability to anyone and be independent and earn for themselves and their families.

Women are the primary caretakers of children and the elderly in every country in the world. They take the lead in helping the family adjust to new realities and challenges. So, if women are trained and employability is ensured to them, they can carve their livelihood in a very civil manner. This will change the economic organisation of a society. Vocational education and training allow students to gain practical experience in their chosen path, and those who complete these rigorous programmes have the credentials to get started right away in their chosen career path, through which they will get involved in skilled work and be less involved in criminal activities, resulting in a reduction in criminal activities and societal upliftment. Mrs. Rupam's activities make a difference and have an impact on the lives of those who are less fortunate.

Mrs. Rupam threw herself into this work with body, mind, and money with the interest of educating children and strengthening the lives of women so that they could work without any dependence. She is always ready to take on challenges and has worked with great passion and enthusiasm. In the COVID-19 pandemic, Mudraas Charitable Trust has done commendable work. On a daily basis, they used to provide rations which included rice, aata, and dal in the slum areas. They also donated face masks, hand sanitizers, and community booster medicine kits. The people in the organisation by risking their lives came out like warriors to help others, which on its own was a challenging and complicated thing to do, but they managed to carry out things easily.

Apart from social activities, Mrs. Rupam has a keen interest in singing, dancing and is passionate about parent and child coaching and counselling to build a better and more robust new India. In her free time, she likes to watch movies related to social issues, women's empowerment, employment issues, and historic movies that deliver great knowledge. Mrs. Rupam is a superwoman, and her contributions have inspired many people to step forward and make a difference in society, so that we can make the world a better place to live and India even stronger than it has ever been.

SULEKHA VERMA

Believe in Yourself

Nothing is impossible, if you are capable
You will achieve the heights, when you are credible...
Your path might get fall into a million of hurdles,
No one can stop you if you are plausible
People can teach you a tons of advices,
But listen to your heart's script, if you want to be acknowledgeable
Always turn your adversities into opportunities,
Don't be afraid of failure, make yourself perceptible

Keeping the above poem in my mind, I always follow my heart. Whatever it directs me I just do the same.

I am Sulekha, a teacher, a trainer and an Entrepreneur. Lets ride together the roller coaster of an aspect of my life.

I got married just after finishing my high school, when I was just 18 years old, but my heart denied to give up on my formal education. However, constraints of the nuptial knots held me back, though not regretful, for long seven years, preparing me internally for my new journey. After being blessed with two sons with an age difference of three and a half year, in 2007, the student inside me wake up that not only pushed my soul to be fed with its fuel (Education) but also filled me with enthusiasm that was faint in the rush of raising my children.

Here I started my new pilgrimage towards the goddess of Knowledge. I pursued my tertiary education from GNDU from 2007-2010 which culminated after the completion of my higher degree of Masters of English in 2010-2011 from GNDU, Amritsar. After that I pursued Bachelor of Education

from 2011-2012 from Jammu University to make myself a licensed teacher, and I started working as a Primary Teacher in a reputed CBSE School of my city. How could I stop myself as I always say " Never cease to be hungry, provided the hunger is for success".

Nevertheless, I could not satiate myself by being an "abc" teacher (Primary teacher) .So, I joined another reputed institution of the city and got TGT grade there.

Adorning my profile is my favourite hobby, so I started updating myself with advanced English. I became a certified BRITISH COUNCIL IELTS Trainer, Cambridge Certified Trainer, PEARSON certified and IDP certified trainer. After equipping myself with these certifications, I inaugurated my OWN LANGUAGE INSTITUTE in 2017, (for which I took a break from my job in the school) where I give training for

IELTS, CELPIP, PTE, TOEFL, DUOLINGO, SPOKEN and
ADVANCED GRAMMAR according to the CEFR LEVEL SYSTEM.

Adding to this, my outstanding results speak itself about the level of my training.

Unfortunately, my institute was also not an exceptional one in the list of the businesses who were hit back hard in corona pandemic. So I had to shut down my INSTITUTE. But who was going to give up again, in that time of crises, when everyone was worried about their lives, I started working on myself. I decided to upgrade my profile with the another PG DIPLOMA of 400 hrs in TESOL/ TEFL i.e, teaching English as a foreign language from ASIAN COLLEGE OF TEACHERS that was completed in 2022. And another feather was added in my cap on 12 November 2022, when I participated in Asia Award Conclave and got awarded for my efforts.

For now, I have been working as Head of English Department in Khalsa College International Public School, Ranjit Avenue, Amritsar since the last 8 years (with a one year of break in 2019-2020) with a total teaching experience of 10 years as an English Language Teacher. I have been running my own Language Institute with the staff of six trainers in the prime Location of Amritsar with the name of SELTA

EDUCOMP. Working with some of the NGO,s in my city as well as providing guidance and counseling sessions to my students with the help of psychometric tests. Moreover, underprivileged students get free of cost evening coaching classes for academics in my institute. Apart from this, my professional qualification does not end here, I have been pursuing Professional Doctorate program in Education Management from EUROPEAN INTERNATIONAL UNIVERSITY, PARIS.

Motto of my life is that we should be intrinsically motivated to hit the targets of our life since no one in this world has power to mould you in their desired shape. Only diligence and perseverance can give you results for which you are passionate about. And this is also tagline of my institute Diligence, perseverance, result

To epitomize, I would like to wrap up by saying the following lines straight from my heart.

From a 12th pass out housewife to the mother of two blessings (my sons), I never gave up on my dreams...

From a graduate, post graduate and then an Educator to Entrepreneur ...I never stopped dreaming...

From a degree holder in India to be recognized internationally.

TODAY...I will not PUT A HALT on succeeding.

And I owe all my success to my husband who never ceases to support me at any step of the ladder of success and journey. Without whom I could not even think to step out of my house.

Thanks and Regards

Sulekha

SUMAN MURLIDHAR

Prof. Suman Murlidhar Pawar is working as a Principal and a Professor at Madanbhai Patil College of Nursing, Kavalapur Sangli under Maharashtra University Health Science. SUMONA S PANDAY

Sumona S Pandey is a senior program Executive ,working for more than three decades, with a Central Government prestigious organization All India Radio and is associated with production and presentation of programs related to various social , health and environmental issues.

Presently incharge of FM RAINBOW RAEBARELI station,she has contributed to spreading awareness and enlightenment among the audience,regarding health and hygiene,among other topics, especially during the trying COVID period.

She has been instrumental in bringing about a noticeable change in the behaviour of society in general,with a series of sponsored progs ,titled "Bindas Bol ,Chale Zindagi ki Ore".. over a period of more than five years, based on the plight of HIV POSITIVE patients and an awareness campaign regarding the same,in collaboration with the State AIDS control society of India UPSACS.

In this drive,she produced innumerable radio dramas, interviews of patients and heath specialists, health workers,hosted live chats with them,produced phone in programs, mainly to bridge the gap between these people and the society, thus bringing the people with HIV virus into the mainstream,and lessen the social stigma attached with HIV positive persons.

She has also worked towards the upliftment of the women in society and produced many such programs,to this end.She produced a radio drama series "Indradhanush" ,based on the stories by eminent women authors, to the calibre of Mridula Garg, Maitreyi Pushpa, Krishna Sobti, Mannu Bhandari, Mamta Kalita,to name a few. Sumona has been tirelessly working for the betterment of society and has earned considerable revenue for her organization,i.e.ALL INDIA RADIO, for which she was awarded certificate of excellence for "Outstanding Commercial Performance" by the Directorate of her Organisation i.e . AIR. Sumona is passionate about the children's rights to and the upliftment of the mentally and physically challenged people and elderly citizens,having produced hundreds of programs to that end, comprising of short dramas, stories,talk shows,musical programs ,phone in shows etc.

Currently she is managing the program wing of FM RAINBOW RAEBARELI STATION,under the guidance of its parent station AIR LUCKNOW,and constantly giving guidelines to the anchors to present programmes not only to entertain ,especially the youth,but also to educate and inform the masses in an interesting manner,so that people listening to the programs get something substantial and improve their lifestyles. She also hosts interviews with eminent personalities from different walks of life,be it cinema, literature,culture, health etc.,to project a positive picture of the society in whole,and works with the people at the root level to know about their daily grievances and absolve them through her programs on radio,as she enlivens the motto of her Organisation

"Bahujan hitay bahujan sukhay"

SWEET BACONIA

Mrs. Sweet Beconia Lyngdoh Tron. A blend of silly and serious. A dreamer with my feet still on the ground. The kind of human that can find the sunrays in a rainstorm. Here I am single mother of 3 children and as well a supporter to all the needy who needs help. Working under someone is really a hard thing to fulfill my needs as the head of the family and with a heart always eager to help someone who is in need. I really thank God that by getting to work under someone I got to learn and shape myself to achieve my goals and become a gem. Being a gem I started to shine out of mountain of despair, A stone of hope by becoming an Entrepreneur, Dealer, Supplier, Retailer of garments, shoes and as well moving forward to Export & Import. Started to Export garments and

footwear from my state's nearby port which is near to Bangladesh, I could realize that exporting of Boulder stone and Limestone is much better with good profit. Having said that this work needs huge investment and hence I had invested all my hard earned money into this work. Since I always have a heart to help the needy, I along with eight of my friends and family formed a society to help others. The name of this society is, 'The Society for Labors & Development Agency'. I have been elected as the Chairperson of this society. Being the chairperson of this society I raised my voice so that those without a voice can be heard. This society aims in giving a chance to the skilled and unskilled labors to find a suitable job for them. Also this society aims to conduct regular surveys to check if these labors are getting a hygenic environment or not. If they are performing their work with proper safety measures or not. And also weather or not they are getting their wage on time.

My journey doesnot end here. I continue to learn and educate myself more and hence I joined a Tourism Pageant which was held this year in Thailand. I am happy to share this with you all that I have been crowned as winner of Mrs Tourism Ambassador for peace 2022. As we all know that charity begins at home, the same way peace begins at home. If a person is happy at home, he or she will spread happiness in and around the society. Being a mother I feel the need of teaching our young ones about love and peace so that we can produce more world leaders who will instill love and peace to the world and generations to come.

TASNIEM J

Tasniem K Jabalpurwala is an accomplished interior design professional who over time diversified from being a residential and commercial space design consultant to becoming a renowned Numerologist. It is a story of sheer determination and fortitude in which she chose what she strongly believed. Truly an epitome of strength and opportunism, every challenge and every adversity that she faced sowed the seeds of endurance which she transformed into an opportunity. An Opportunity to Aspire, Ascend and Achieve. In her career spanning more than 25 years, Tasniem executed many renowned interior design and space planning projects in Mumbai ranging from restaurants, gymkhanas, clubs, apartments, villas, commercial establishments, etc.

It was during the COVID times, that her design consultancy was bottled, and she was at home. With restaurants shut, there was always a dearth of food supply and during this time, she took the lead in starting a Women Entrepreneur's Group in her society. This did wonders for the women of society. It not only helped the women mentally but also financially. It made them independent. The women prepared delicacies and sold these via the WhatsApp group created for this purpose.

There came a time when she felt saturated and wanted to do something different. Something that involved science and psychology. Something that could benefit society is a giving back pledge indeed. Her interest over time inclined towards Occult Science. Initially intrigued by the unknowns, her flair for numbers and mystical phenomena that influenced human life got the better of her. She stepped into the field of Arithmancy and thus began her journey exploring the occult, divine, and mystical relationship between numbers and coinciding events.

Tasniem is now a full-time practicing consultant specializing in the field of Numerology, Vastu Shastra (traditional and scientific Feng Shui), Medical Astrology, KP Astrology, Pronology, Graphology, Business Numerology, Predictive Numerology, Crystal Healing, Healing Codes, etc.

During her career in the practice of Occult Science, she has been associated with coaching academics for career guidance counseling; matchmakers for finding a compatible match for life partners; providing advice on personal issues in relationships, counseling, and guidance; providing advice on health issues, etc. She has been a speaker on "Global Alliance of Numerologists" amongst various other forums and platforms. In a short period, she has elevated to a position of reckoning within the numerology fraternity and has over 150 national and international clients.

She is a liberal philanthropist and has been part of many social movements concerning child education, health, charities, and donations.

As a wife, a mother of two adult children, a homemaker, a professional interior designer, an excellent chef, a numerologist, graphologist Tasniem truly believes in the maxim, "Education does not only mean acquiring a Degree, it means the Art of Living. Holistic living and this Holistic art is a fundamental right of every human being sans gender disparity. Every Woman, Every Girl must acquire this Art.

ARUNA CHOUDHURY

Far from the central from the bottom of land where sunrays falls to energise some plant to see them grow as a strong tree where she can make different creatures to take shelter as home ..to able to give some shades to the needy ..with this dream in heart grown up in a small town following all the disciplines blended with defence culture where only thought of HUM HINDUSTANI exists as a Religion. The term PANGAL(Manipuri Muslim) itself means STRONG and I was a AFOWBI NUPI (famous girl)since I was born. Got married and was well settled in Thailand with a good business status. But something struck 8 years back and returned back to India with a goal and thought of if we can be successful in other's country why not in our own land and the hope of becoming the Door of success made the steps forward to achieve the goals and

that's how I started my journey with a small play group school and never turned back again .It was never easy for me being as a mother handling 2 girls child at the same time ,but it turned into reality with the help of my beautiful ladies team. Its been only few years we are established and we are proud that we became the helping hands of many needful peoples .like widows , orphans, and has been donating silently to cancer patients , Cancer hospital, many NGOs, and also became the regular donator at Impact Guru and specially taken 2 widows and 5 children's education responsibilities .

Supported Autistic children's as normal and allowed to study equally in my schools .My motive was to work selflessly alone in a hidden way apart from my lavish lifestyle without taking anyone's help as a One Man Amy. I believed strongly that if I am strong enough to earn and have a full round Roti than I can share half with the needy one .Giving makes more powerful. Life is like a fountain waterfall where water flows continuously but never ends . As the creator above showers you with more water and its falls and falls. The more you do for other's the more God gives you Same as a Educator the more you impart knowledge the more you become educated with a wisdom of success and with a hope to be RAYS of hope to many my gratitude to the Woman ladies Forum for recognising my hidden work and for the gesture of awarding me .

Jai Hind

DIVYA CHHABRA

She has done bachelors in biotechnology and her masters in MBA-IEV Innovation Entrepreneurship & Venture Development from Graphic Era University, Dehradun. Followed by her passion in astrological counselling, She managed to get a degree in Modern Hand Analysis & Palmistry From LSA. Entrepreneurship has been a unique journey for her. She believes, Therapy is a process of growth and self-discovery, and She promotes behavioral transformation by encouraging a positive outlook through the adoption of new attitudes and reactions.

G POOJITHA

I am Poojitha, 33 years old Managing Director of Sparkle Makeovers Academy and mother of two kids (Sharanya and Onish) from Madanapalle, Chittoor district Andhra Pradesh, Currently living in Warangal, Telangana. I come from Lower middle class family when I was at age of 8 years old my dad has expired due to health issues, My mom (Bhagyalakshmi) faced many struggles to raise two girl children me and my younger sister (Chandrakala). When I was studying Intermediate (+2) I got married at very young age due to financial instability at home. After I married late Anil Kumar who

was working for BSF (Border Security Forces) life went well we were blessed with our first baby girl Saranya at 2009. Anil expired on duty when I am carrying my 2nd baby at 2012, Life was miserable and I had to take up all the responsibilities all alone, hence worked for BSF (Border Security Force) for at least 5 years. During my period in BSF I have travelled a lot to worked in many places like Chattishgarh, Punjab, Calcutta, Bangalore etc., till 2019. I have learnt many lessons in BSF, I have learned to have minimum expectations both from situations and people. And I faced lots of struggles and harassment in my life as single parent and I was not able to cope up. Although my mom & my well wishers wanted me to continue working for BSF for my 2 kids and their education I left my Job at 2019 to pursue my dreams. Since my childhood I am very passionate about beauty and makeup and figured out beauty and makeup industry is a huge industry and My passion towards colours and beauty brought me to this industry. When I started my journey in 2021 as a fresh bee I figured out its not an easy job but I know it can be one of the most rewarding career, currently I am also helping poor woman's to achieve their dreams who's interest is in MUA field. I am self-made and believes that I can conquer anything you want with the right mindset and goals. I just begin as an entrepreneur and feeling amazing to work for myself and satisfied when I am seeing happiness on my client & Students face. I am proud to be a Makeup Artist and Educator

HEENA PUNJABI

Dr Heena Punjabi is a passionate and award winning dental surgeon based in Ahmedabad. She has been an advocate for oral cancer prevention and Tobacc cessation at national media platforms like Doordarshan and All India Radio , Gujarati. She has a global training and was recently amongst the fifty-five female achievers invited to walk for the cause of women empowerment

at the recently concluded consumer film festival at Mumbai. She is actively engaged in conducting Mother and child health awareness sessions and runs a podcast dedicated to women's health by the name "Health Shots with Dr HP" on Spotify .

She runs a centre for advanced dentistry at Soham Laser Dental. The centre is located in front of the largest cricket stadium in the world, the Narendra Modi Stadium, Motera, Ahmedabad. The practice has state of the art dental equipments like USFDA approved lasers and sedation dentistry. It recently won a pan India award for best clinic establishment for the year 2022-23 held at Mumbai . When not at work she is passionately engaged with conducting toddler yoga workshops

Thriving to build women empowerment and financial support for women's development in all the possible ways.

CA RAGI RASHMI SHRIVASTAV

The life of a sensitive person is never easy. The surrounding events always impact me. I am fortunate to have a supporting family. My family is my strength. My late father has been my pillar, he constantly guides me. Both of my parents were gazetted officers with the govt. My mother is a strong, quick thinker, and a hard taskmaster. A lot of motivation comes from my elder sister who always stands with me and strength from my younger brother and my husband who is my career partner also. I am truly rich and blessed with all these beautiful relationships and the way it shapes me as a person. I am also the mother of two beautiful souls (Urja & Vidyut).

I am a goal-oriented person. Nurturing society in my capacity and advocating harmony with nature are my prime areas of focus. It anguishes me when I see the mindless and relentless exploitation of mother nature and here, I feel I can contribute immensely. The global commitment to Sustainable Development Goals (SDGs) is a great direction for society. Being a woman advocate comes naturally and I believe in the gender equality (SDG 5) narrative as highlighted by the CoP 15- Paris Agreement.

I am a Chartered Accountant, writer, and entrepreneur. I am proud

to belong to one of the most prestigious professions in the world. Being a fellow member of the Institute of Chartered Accountants of India, I set myself high on integrity. Though I am a proud female professional, few senior colleagues indicated that the practice of CA is not meant for females. I carried on with my preparation and became the first female CA of my city

and yet only female CA in practice. Looking at my performance and capabilities, I have been assigned various works from the Institute of CAs which includes the prestigious assignment of being an examination coordinator for the CA examinations, I am elected third term as Dy Convenor of Rewa Chapter, my professional colleague's faith shows how they believe in my capabilities without being gender biased.

I am very optimistic and believe that the winds of change are flowing.

Over the years I have gained the strength and skills to carry on some of the most arduous projects in Audit, Taxation, and Project Financing. Notwithstanding, I strongly feel that I should not be defined only by the profession I practice. Therefore, after achieving my career goals, I have expanded my horizon.

I am the founder of 'Urja Mitra Constructive Energy Pvt Ltd'. The company is well on its course to do the first project with the Govt of MP. Besides this, I enjoy writing (long & short format) and poetry around topical subjects. Encouraged by my family and friends, I am working on collecting all my writings to publish. I am also a mentor and motivator to adolescent girls. I am concerned about teenage girls' behaviour & hormonal changes, awareness about their psychological vulnerability, and their alertness to the increasing drugs in our society. These drugs which are also used for medicinal purpose is spoiling my city's future generation. I have set up an informal community with empowered people who are equally distressed because of this drug menace. We have started highlighting the issue through new-age communication tools like social media. Through social media, we reinforce thoughts around the issues. The least it helps is propagate the thoughts and like the butterfly effect helps in establishing and expanding the chain of thinkers. At a personal level, I keep myself physically and mentally healthy by reading, cycling, and meditation.

To conclude, I can say that the life of a working woman is difficult. I am fortunate to be empowered by the virtue of my family. An empowered woman always set the highest benchmarks for herself. I am sensitive, emotional, and honest and I wear these qualities up my sleeves. These are the merits, and it has made me who I am today and will continue to shape my life. I want to say with a lot of conviction that it's beautiful to be sensitive, emotional, and honest. The world of needs these qualities today more than ever. These merits will empower society and especially females.

The work that I do is not for any recognition and will continue irrespective of the awards I am bestowed with. The WOMAN LEADERS FORUM is a prestigious platform and this award means a lot to me. I strongly feel that if I get this award it will go a long way in inspiring more people to pick up the thread wherever possible and do their bit in making this society equitable and sustainable. I am sure to become a great ambassador to your prestigious platform and would like to contribute towards its success.

DR LAVANYA NAGRAJ

They say -Find the purpose of your life and I found the purpose of my life at a very young age which is "Service to people"
And I do that both as a doctor and a philanthropist

I am a radiologist, MBBS, MD-Radiodiagnosis
Two of my publications are recognized at international conferences in Shanxi,China and Dubai,UAE(2017)

After completing MD in 2017, When I started looking for employment opportunities , I received multiple offers with good pay . Meanwhile I preferred a good practice where I could get ample amount of professional experience One day while driving, I started contemplating where I would take up a job which was convenient for me , when I happened to cross in front of a Government hospital in that locality. It immediately struck me, what about radiology services in these hospitals With a bit of research I realized how difficult it is for the under privileged people who visit these hospitals to avail services since they do not provide quality diagnostic services at a general hospital and have to get referred to district

hospitals where there is a coupon system for radiological services that keeps them waiting for months.

I then decided to take up the job as a Consultant Radiologist under the National Rural health mission (NRHM) and worked in Jayanagar General Hospital (2018 and 2019)

There is an immense satisfaction in providing service to the people who actually need it but cannot afford to receive it. There is real scarcity of Specialists especially in Radiodiagnosis in these hospitals and there is a huge demand . This experience then led me to believe I can do more to help underprivileged people

I am now the director of my dream project – Peak Diagnostics and laboratory services pvt ltd, est.2020., Yet to be launched, Which aims at providing quality services to people of every class and sector

The goal of my company is to cater to people who are specifically of low socio-economic status at a reasonable cost.

Besides , my medical profession , I also volunteer to do philanthropical activities especially to the orphan children and specially abled children because I feel every child in this world deserves basic needs and I would want to make small contribution where-ever possible

I am blessed to have my biggest inspiration -my father at home, who is a huge influence in my life,
And my mother who is an epitome of kindness and love

I have always believed in the concept of- if you give you will only receive more and more
And that is very true.

MS. SHALINI KALRA

Shalini Kalra is the founder of Sukoon, a non-profit organization that provides support to special needs and underprivileged children in India.

Kalra started Sukoon in 2012 with the goal of improving the lives of children with disabilities and providing them with the resources and support they need to succeed. Under her leadership, before this, she was running a successful HR consultancy, worked with all the top companies of different field & verticals. When she decided to contribute herself to community service, she took admission in Masters in Social work as she totally believes in giving her best and wanted to learn the right way of pursuing her passion. Sukoon has grown into a well-respected and successful organization, with a team of dedicated

professionals working to make a difference in the lives of children in need.

One of the key ways that Sukoon helps special needs and underprivileged children is through its education and rehabilitation programs. The organization provides educational support and therapy services to children with disabilities, helping them to develop their skills and reach their full potential.

In addition to its education and rehabilitation programs, Sukoon also works to raise awareness about the needs of special needs and underprivileged children. Through its outreach and advocacy efforts, the organization strives to educate the public about the challenges faced by these children and to advocate for their rights.

Kalra herself is deeply passionate about helping children with special needs and has dedicated her career to this cause. Prior to starting Sukoon, she worked in the field of special education and has extensive experience in helping children with disabilities reach their full potential.

Under her leadership, Sukoon has made a significant impact on the lives of special needs and underprivileged children in India. Through its dedication and commitment to improving the lives of these children, the organization is making a positive difference in the world and helping to create a more inclusive and supportive society.

MS. SEHAR KHAN

If anyone travels on a road in search of knowledge, God will cause him to travel on one of the roads of Paradise. { Prophet Muhammad Peace be upon him }

Journey from a failure to the success. Life has taught me from the worst to the best. From the beginning of my childhood I lived in the fantasies of science, dreaming every time to achieve the aim. I aimed to choose the

field of medical science just for serving humanity. In my matriculation i stepped into the path of success with a huge bounce of failure that pushed me to who I am today. My success begins with the aim, determination, discipline and the courage to fight the failure.

Life is short , and every human specie has that potential to achieve there dreams, goals and desires in limits in a proper way through patience. Knowing the morals of life of your existence of life is the first and the important thing to unlock the doors and pathways for the success as " it's better to be human's than animals ".

Everything we seek chases us and to reach the destination we must have the courage to go through the toughest routes.

There is a long way to go, but I am thankful to the Almighty and proud of being the" Youngest Muslim Researcher In Medicine ".

A heart full thanks and a token of love to my loved one's.

MS. SATABDEE BORAH

Growth Comes from within.

Moreover, it is driven by our own perseverance and thoughtfulness!

While reflecting on my journey of around 20 Years in managing the Human Capital, I see a young and naïve female leader since the beginning. The young leader was full of enthusiasm and concepts taught during her professional education journey. While all the concepts were correct in place, the platform to provide this young leader 'Wings' were missing.

Fast forward to twenty years, here I am,

Satabdee Borah, AVP – HR & Administration at Quest Retail Pvt. Ltd, providing each young female candidate a fair and equal opportunity to be a young leader and 'Wings' to fly, so that they never have to be naïve and ever question themselves.

The foundation pillars of my work are integrity and leadership. My professional experience of being a Strategic HR Professional, Talent Manager, HRBP Support has led to the real Change in the workplace. With over 49% of the employees being female, we have also made Quest Retail a 'Great Place for Women'.

Following the ancient saying of Never Stop Learning, I update myself through regular POSH Trainings for all, Certification on Agile HR Methodologies and Labour Laws.

While all the learnings, whether professional or educational have played an exuberant role in my journey, I would like to draw your attention towards the young and naïve female leader, who persevered and got a chance to own her own 'Wings'.

During my professional career, I have been vocal about "Hiring from within" first. This gives the employees a sense of Quest Retail Family first. I am certified in the field of Agile HR Technologies and have worked on Change Management. I have focused on employee wellbeing and mental health to increase positive work culture in the organization. I won accolades from various Awarding Bodies earning '20 Most impactful HR Leaders' and 'Visionary CHRO of the Year 2022'.

To sum it up, I would quote Kamala Harris, the first woman Vice President of the U.S.A.:

"...While I may be the first woman in this office, I will not be the last."

MS. NITU HAWELIA

Advocate Nitu Hawelia, a renowned tax practitioner and lawyer in the entire North-East. She has received many awards and accolades for her contribution in the field of taxation. She was also chosen as one amongst the top nine women of Assam by a local new channel which included the opposition leader.

Hailing from a conservative family in Assam originally from Haryana, Advocate Hawelia obtained the academic excellence with a Post Graduate Degree in Value Education & Spirituality and Double Bachelors in Law and Commerce (Accts Hrs.). Ms. Hawelia pursued her wonderful and reknowned career as a Tax Lawyer at the Gauhati High Court and its benches at Nagaland, Arunachal Pradesh and Mizoram, as well as the Meghalaya

High Court, Manipur High Court and the High Court of Tripura. She have also fought many cases for poor without charging any fees for them.

She was behind the first GST case in India and had also got the Service Tax matter contested which got widespread media publication and even surfaced in Economic Times, New Delhi. She was the Standing Counsel for Income Tax Department for the entire North East for a period of four years and was also the Central Government Standing Counsel for 2 years. Presently she is the Vice President of Association of Tax Lawyers, the only Lady from entire India till date.

She has also been involved in editorial work and is the Editor of the book "Land laws of Assam and other North-Eastern states" for students by J. N. Das and have Worked as Associate Editor of the leading law journal of North-East India, "Gauhati Law Reports" from 2009 till 2013. Assisted the author in preparation of the detailed commentary book on Assam General Sales Tax Act, 1993. She was also the Editor-in-chief, of the "Tax Bar Association", Guwahati, Assam.

She has also been associated with various associations and have been the Past Vice-Chairperson at the Zonal level and presently the National Executive Committee Member of All India Federation of Tax Practitioners, Member, Gauhati High Court Bar Association, Executive Committee Member, Tax Bar Association, Guwahati. She has represented Zonal Railway User's Consultative Committee for three consecutive terms from the year 2004 to 2010.

She joined the bar in 2003 and since then she has appeared in a number of leading cases in the Gauhati High Court reported and unreported in respect of Income Tax, Central Excise, Service Tax, Sales Tax, Entry Tax, Entertainment Tax, Agricultural Income Tax, Interest Tax and Arbitration as well as other North Eastern States, in short both Direct and Indirect Tax matters for the last 18 years. She also appeared in the famous case of Financial Crime and is pioneer behind the slogan "Bail instead of Jail in case of defaulters in Tax".

She is the Umeed of the Lady Lawyers of North East that they can also become something great where all the high posts like Advocate Generals, Senior Standing Counsels, Senior Advocate are held mainly by male. It goes without saying "I am a woman and I also deserve".

MS. NILU

“A problem cannot be solved with the same level of consciousness which created it “

Albert Einstein

I always knew that there are more than the eyes can see, because we are surrounded by powerful energies, and these energies are the key or answer to all the challenges we face in this physical world. MY most passionate and loving journey has been the journey of the unknown energies, the mystical path, the occult science ...the 'JOURNEY OF THE SPIRITUAL WORLD “

I have spent more than 22 years of my life understanding and learning the laws of universe, the Energies, the vibrations, the karmic patterns, the

destiny and karma cycles, and everything that a soul needs to understand it comes down as a human being.

When a soul is born, it brings along a lot of struggles and challenges along with the mission for his birth, but then, there are a lot of confusions and struggles for the soul in the human form to understand what is happening to him in this lifetime, sometimes it becomes difficult for him to decide what is his life path or why is he even born, why is he not happy??

The Life patterns also include struggles, failures, depressions, frustrations, emotional setbacks, heart break, physical illness, or anything which is negative surrounding him and which keeps showing up often in the lifetime in any spares of life, in relationships, workplace, family or anywhere around him.

I as a spiritual counselor, help by understanding the challenges and struggles and the patterns in which it surrounds the person and I have mastered the art to DECODE this life PATTERN to find out the lesson which needs to be learnt for the struggles to disappear.

Every human being has a different energy vibration, different mission, different life lesson hence his mental and emotions reactions is different, and this is considered in the time of the counseling.

Spiritual counseling is very helpful for a person who is lost, confused, or depressed in life as it gives a fresh hope and excitement to begin again, along with a guided map. it becomes easy to find the goal and add meaning to life, change the undesired destiny and start with new karmas with a good spiritual understanding of the self .

MS. LAISHRAM RUPABATI DEVI

What is a dream? In simple terms, I knew it was something seen it while I was asleep. The next day I would share it to someone, near and dear ones. I love seeing my mom and dad who are no more in this world...

While awake I used to daydream about going to college as a teacher or as an officer in any office. Then who would look after the small children (My two sons)? Asked myself frequently. Could never leave the children alone with their food or school homework. I was always stuck at home as a housewife. But something inside me was always telling to do something while they were away. But, what? Was the big question come forthcoming? You are supposed to have an Identity of your own

and not to be known as a wife of someone so and so... or as someone – a Mother of so and so...

Then came the real dream, to create something out of some things. I knew not what?

Thoughts on global warming, environment pollution, excess use of plastic materials etc. stuck the idea of preparing of eco-friendly simple paper bags and thereon. I started learning, preparing, branding and marketing on paper bags. But it did not last long with sudden advent of Covid-19 pandemic worldwide.

“Where there is light there is hope”- I believe on this as does everyone to control myself to save the fuel for future use to save money for tomorrow, to save the Earth for future generations. And if there is nothing you could do; “Shift The Market” was the inner voice – the essence.

Candle making was my second aspiring aspect. Slowly, I started a small candle inventory unit with available space on the home front. The rise, growth and popularity were significant in my small locality which had motivated me to do much better and serve the people and value to the customers. To scale new heights both horizontally and diagonally, to show the world that I am not far behind from others. How I wish my mom and dad were with me today....proudly a loving Daughter and a self-made Entrepreneur.

The words say that you keep on grinding and grinding to bring out the power in you and the theme justifies truly to me that “Power is not given you have to take it”.

MS. JUTURU RAJITHA REDDY

Risks and Riches, Hail and Prevail, Better and Bigger ,when in Living, you Strive and Thrive. Does being Rich make you a Rebel, if it makes you a Good Rebel, why not for the Greater Good!!Richness in thoughts,Richness in Spirit, Richness in being. That is Rajitha Reddy Juturu for you.Rajitha Reddy is a Rebel at heart with Richness in mind, don't mind her when I say she is a Rebel , but most upright and uptight people are equally kind and forgiving.

Born in the quaint and picturesque town of Pulivendula, a town known for its old charm, political richness , pomp and power, she did not let her surroundings get into her head, instead she rose above to help and comfort people in need, enrich and nourish them through employment and to be a flag-bearer to many causes.

She hails from a Traditional and Conventional family, and has been an actuate at studies. Her Discipline and Intelligence made her an extraordinaire at studies.Her father though a Bank Employee, with his entrepreneurial streak started a business of his own. Though his business went through some rough waters, Guts and Glory is what you are, when you rise above things. Rajitha would have acquired

this Enterprenual and Fighting spirit from her father since her early days. She decided not to go with the flow but listen to her Heart and waited to see where Time takes her, to take you back to the place where you truly belong, and come back only Stronger and Mightier.

When everyone thought she is losing Rhythm, she wanted to prove that she is still the same old person, who can excel at anything and everything.She put her mind and soul and achieved 432nd rank in UGETCET,a prestigious entrance through Manipal University. But most unconventional are sometimes traditional too , yet she chose to study Engineering closer to Home.

After her Education, she did not choose the easy way, but wanted to swim against the flow and survive on her existence with her Ability and Hard working spirit. She had her limitations to overcome, but that did not deter this young lady. She focused her Energy on Learning and training in new things, which she believes helped her shaping her identity. Her Independent spirit made her to dream, made her capable to chase the impossible, and be truly deserving of her Success. She worked with some fine companies which fine tuned her Ambitions and gave answers she was looking for.By this time, she knew if you put your mind and heart into something, Nothing is impossible.

Then comes the Family way, she is a Blessed Mother of a Baby Girl and able wife to a Gentleman. But Ambitions will not make you sit and say this is enough for now, she knew something a missing. Maithili Life Sciences private limited,has started its R&D unit by then, in the year 2009 and in 2015, their Manufacturing unit commenced. Through few inhibitions in her mind, she started this career, Boy did she excell! And excel she did!!

She took up the reins of the business very fast and through her intricate detailing of things and keenness to Succeed,she has been appointed as Director for Maithili Life Sciences in 2020 and has nurtured various departments under her able shoulders, which led to diversification of Maithili Life Sciences into Maithili Pharma private limited and Maithili Infrastructure private limited.

Dreaming for oneself is what everyone does, but dreaming for others Well-being is Visionary. Eat Green, Grow Green and Leave Green Earth for future generations is what she is striving for and educating others, She believes in Women Empowerment and through authority of her Position,she intends to hire more Women employees , something she learned from her dad. As they say, it starts at home. Some are born Genius, some are Genius in making, Rajitha would like to expand and diversify her line of Business into Ayurvedic and Home grown products, which fondly calls 'Maira'.

We call her beauty with brains who bagged the "MOST CONFIDENT" subtitle at Mrs INDIA EARTH 2022 beauty pageant by Glam Guidance. She also achieved INDIA PRIME WOMEN ICON AWARDS 2022 by Foxclues.

You dream, and Dream Big. Employing and Empowering others, and especially Women, is a Blessing which Rajitha Reddy has been bestowed upon, and she is doing the job just fine.

MS. INDU MUNJAL

About 8 to 10 years ago, the times going on for me and my family were hard. I had just put together a small setup to teach tuition classes on the ground floor of our house. There was only one 11th grader who was coming to learn science. There wasn't much hope that this would be a successful set up. But my family supported my decision to start this institution and in order to make this setup a success, I started to put my heart and soul into it.

After about a year, 2 more students joined. Then the next year, 7 students joined. And slowly my institute started to grow. We bought a bigger table, more chairs and a tablecloth to make it a little more comfortable for the children. My institute started to grow and it was on its way to success. By 2019, I had

come up with proper batches for both ICSE and CBSE.

I am a postgraduate physiotherapist by qualification but my love for teaching pulled me towards this noble profession. I love to teach and to spend time with my students.

The ups and downs I experienced during my journey have always motivated me to do more. I have also started the "Marathon Classes by a Marathon Runner". In these classes students are engaged in fun activities which help them improve in certain topics or subjects as a whole. These Marathons are conducted every Sunday and are free of cost.

The goal of my institution is to make education relatable to the students. I want to connect education with a practical approach. The main goal is to make education fun and a little easier for the students to understand.

I hope that I can progress forward with the support of my loved ones. I thank my family, my students, my teachers and the almighty for providing me with the strength and support to make my dream a reality.

Looking forward to lots of encouragement and motivation.

Nandini Munjal

MS. HITESHI PANDYA

Be your own boss.

You don't need anyone else to tell you what to do. I've come a long way in a very short span of time. I started out as an undervalued 9-5 B2B salesperson. Today, I'm assisting hundreds of sales professionals and entrepreneurs in creating a life and business they enjoy. I'm a B2B sales strategist, sales psychology specialist, entrepreneur, and founder of Sales Burgh.

Based on my own experiences, I understand the importance of a sales coach. As a result, I provide my clients with customized solutions that help them reach their goals. My sales coaching style is not for everyone; it's tailored to fit each client's needs and personality. After my friend introduced me to the B2B freebie sales opportunity, I was instantly captivated by its potential. I made seven-figure sales and signed ten new clients in my first year.

However, most newcomers struggle to close even one deal in their first year and get one new client in the next. Not long ago, I found myself at a crossroads in my life where I had to make major changes regarding my career path. In the past, I was an IT salesperson sitting in a cubicle all day looking at phone numbers. It was a tedious and monotonous job where my achievements were never recognized, so naturally, I dreaded going to work every day. At times like these, you wonder if changing careers is worth it since you might start over from square one. But no matter how many setbacks you experience along the way, sticking with it will always pay off in the end!

I've always dreamed of swimming in a bigger ocean. And so I worked harder every day than I worked the day before. It came with uncertainties. Also, it was difficult for me to return to the corporate sector due to office politics and lack of respect, so I had no choice but to stick to my idea of "Sales Burgh." The transition to "becoming my own boss" came with challenges and unknowns. I devised my own sales approach and became an authority in what I was selling.

My hard work paid off in my first year as a sales freelancer, as I closed seven-figure deals and added ten or more new clients. I had no idea where to start finding my first clients, and my fund quickly ran out. In desperation, I attended professional events across the country—and wasted a lot of time and money on phony "gurus" without ever gaining any clients. As a rookie with a competitive spirit, I HIGHLY DISCOUNTED my services—but still, no one was interested!

I was finally able to gain traction, but it wasn't easy. I added clients from across the planet. It all adds up to this: if I can learn to sell several seven-figure sums in my first year without any prior experience or contacts, so can you. I aim to share everything I have learned about sales with you so you can live your life. If you got this far, you are like me: a go-getter and doer who wants more in life. Sales Burgh understands that and is so dedicated to helping you increase sales. Whatever your situation, things are the same regardless of whether you're an employed salesperson battling to keep a sales quota or a new freebie hunter searching for your first client. And if I can succeed, you can too...

After all, success is not a destination, it's an adventure, and when we succeed, we feel it in our bones.

Sales Burgh
Art of Selling

MS. FORAM DEDHIA

Success is no accident. It is Great Aim, Hard work, Acquiring Knowledge, Learning & Perseverance. Most of all, Love what you are doing & Serving to Society!!

I remember my childhood days with sketchbooks & Pencils from which I started drawing my passion & career without thinking about such positive up-shots. Started my career from Mumbai's best college for Art & Creative minds i.e. Sir J.J. School Of Arts, Mumbai & gathered lots of knowledge & experiences with nature & human psychology. I Decided to work under an Architect for nine months to groom & gain the knowledge & experiences. After nine months I realized my capabilities & required freedom for more experiments. Started taking new steps and ownership of Design & Build business with full client satisfaction. These beginnings taught me meaningful lessons on how to interact with peers & Clients.

Every interior designer and student will have their own subtle rituals, tools and procedures that they call upon to help bring out their best design work. For example, at the simplest level I never start a design project without my faithful Pen & Pencils, the pen in particular is just a very worn biro that no longer opens and (its constantly open), but I've had it for almost 10 years now and its never let me down. Creating designs & setting proper standards of living for each client with my concepts are the base core of my satisfaction. Drawing & traveling to different places hence experiencing different cultures are always a stress buster.

With my journey & Experiences served as a pivotal moment in my life & the path that i had been walking all along lead finally for " Headquarters 2.0 " to see the day of light, Estb 19th March 2020. Delivering the best of my abilities by giving perfect color and Shape to each client's dream house is the routine of my life, With Completion of Each project and Witnessing the Client's face filled with joy is the ultimate satisfaction. The best Incentive as a designer is the energy and Motivation which comes along with every successful delivery of Project and this the core adrenaline that pushes me forward for new opportunities with every passing day. Today It's 9 years now and the Journey is going on....!!

I have always looked forward to having the out-turn in my journey & awarded for my hard work & services which i tried to deliver till date & today, it's a reality. With order and repetition comes disorder and randomness. Subtle ways from the order of say a window arrangement creates a chance to draw attention to a particular feature or view.

This isn't the end goal, hence the beginning of the new journey & new expectations from life. Not giving up and/or settling for an average design solution to a problem, is key to procuring a successful project, sometimes you really have to fight to achieve the best satisfaction.

Headquarters 2.0

MS. DEVI MURUGAN

Devi Murugan, Senior Vice President – Operations at Annexmed a revenue cycle management provider for healthcare industry, is a self-made leader and has achieved all the laurels in her management career despite personal hardships. Born in a middle-class family and brought up with simple values, Devi was married at the age of 19 and was a mother of twin daughters by 20, she had to start life afresh and had to fight multiple battles both on the social and financial grounds.

Devi had a bachelor's in business management and a master's in yoga, which helped her to obtain an entry level position at a medical billing company. Her resilience, hard work and her passion to succeed professionally were driving her to achieve great heights in her career. She joined Annexmed in 2013 and through hard work and dedication she grew from a manager

position to become the Senior Vice President in their Operations department. Annexmed provided the right support and platform for Devi to unleash her talent and paved a right path for her professional growth. A few highlights in Devi's career at Annexmed includes development of Medcubics (Medical Billing software for US healthcare physicians). Without a formal technology qualification and limited experience in IT space, Devi learned the art of technology and data architecture with the help of technical team. She will spend hours in office understanding the coding language and data design. Later on, she goes to develop more tools like Accounts Receivable Tool and mobile apps for the clients.

Devi is well recognised for her client management and customer service and manages a large team of professionals. She has advised clients on their systems and processes and implemented solutions. Her team building skills and people management traits are second to none and she is always regarded as a leader who is keen to take new challenges and inspires the team to work hard and excel. Her team members are always encouraged to take new challenges without any fear of failure. Devi also supported the management in their hospitality business as they started a new restaurant in Chennai. While she was busy managing the operations of the healthcare provider business, she stepped up and supported the new restaurant which was at its inception stage.

As a student of yoga, Devi wanted to pursue PHD in yoga as she was a trained Special Education teacher. But life came with different challenges at an early age for her and she grabbed every little opportunity that was presented to her. Her courage to face the challenges and willingness to succeed is next to none. Now Devi is mentoring her young daughters who are pursuing university education and encourages them to play competitive sports. Devi regards that her value-based upbringing and resilience were key factors that helped her to weather the storm at the age of 22. She encourages her team to challenge the norm and stay positive in difficult situations. After all, when the going gets tough, the tough get going.

DR. SWATI VITONDE

Dr. Swati Vitonde

Success is the progressive realization of predetermined, worthwhile, personal goals." —Paul J. Meyer. I have realized this in my journey of about 36 years that success is a culmination of your right attitude, right efforts and taking right decisions at right time.

I have a Ph.D. in Environmental science and a M.Sc. by research in Chemistry from reputed institutes and have been working since my first graduated degree. It has been a great journey though with lots of crests and troughs. When I graduated at the age of 19 years, I wanted to start a business of my own. No background of family business was there but always dreamt of having my own empire. After advice from the more experienced individuals I took a job in my own field of laboratory testing. After learning the techniques of testing it was a routine job for me so I shifted to technical writing where

was Assistant editor to one of the leading technical journal since I had a flair of writing. After pursuing my post graduation I was working in a R&D of another reputed organization. Successfully executed many projects and shifted to a MNC well recognized in FMCG field all over the world. This organization changed my perspective to look at the world. That stint gave me a global exposure and enhanced my capabilities and received recognition with proper planning, timely execution of projects and building human relationships. I travelled the world with an open mind and it nurtured my already existing skills to make me into a complete and confident personality. In this journey I learned a lot about different management techniques and developed capabilities to be ready with the future.

In the year 2008, alongwith my other colleagues we started our own organization called "Ross Lifescience Pvt Ltd". It was a very bold step that time to jump out by leaving a good cushioned well paying job but we believed in our capabilities and then there was no turning back. We divided the business roles as per our competencies and I happened to take up a role of a Director of Finance, HR, Administration and Quality Systems. This was a techno commercial role and I started struggling to understand the financial jargons, policies and compliances and the business regulatory environment. Although a small outfit of 4 people, today it is an empire of 125 people with a very profitable venture. In this endeavour we were fortunate enough to go back to society, people and generated many job opportunities for the young generations.

I am very happy enjoying my role today and give a full credit to my family, friends and the Board of Directors along with our chairman who believe in my capability and gave me an opportunity to progress and fulfil my dreams.

**ROSS
LIFESCIENCE**

EXCELLENCE THROUGH INNOVATION

DR. MARIE EVANGELINE

A good teacher can inspire hope, ignite the imagination, and instil a love of learning.

– Brad Henny

I have always believed that education is the integral part of building a society. The idea of wanting to make a change is what drove me to become the teacher that I am today. I have learnt some of the most valuable ethics and ideologies from my teachers. To pass that on, helps in creating a newer and better tomorrow. I believe the key to be a good teacher is to recognise what you have felt as a student and make sure to not pass on the things you dreaded. With a little empathy, sincerity and the patience to understand how your students perceive you, anyone can become a good teacher. Being a good teacher doesn't essentially mean you just deliver what needs to be taught. A good teacher, makes a change in every student's life, no

matter how small, because this little change in a classroom could be the start of something huge in that child's journey.

Coming from a family of teachers and educators, I have been drawn towards language and literature from a very young age. I spent most of my early life in the city of Pondicherry, a place that has had years of blended literature. Growing up here showed how language and literature can influence the culture and people of the place. This gave me a constant itch to keep pursuing literature, so I can experiment and learn the social intricacies that language can impose on a society.

From my bachelors to my doctorate my predominant driving force was how language and literature has played a vital part in everyday communications. It is how we exchange thoughts and ideas. The power it holds in persuading anyone to think and act in a certain way has always been intriguing.

My journey began teaching 5 years old school kids, further in various national and international institutions, and now I guide doctoral candidates in a University. I have travelled the world, met scholars of different cultures and exposed myself to different literatures of the world. Every step has taught me something new and the love for literature has enabled me to give back to the students' community. I believe the purest form of literature are books. Recently, authoring books have allowed me to tell stories of women and families that any woman can resonate with. Women have so much to discover and learn through literature. A sense of liberty through language. And I intend to make that achievable and accessible through my work as a teacher.

DR. CHUMKI NEOGI

I cannot make people successful; I can definitely enable them to walk towards their path for success.

While enjoying a stable career in one of the eminent MNC company of the country, I was entrusted with the role of heading their Telemarketing vertical. My constant involvement with the domestic BPOs across the country, made me realize that in the BPOs lied huge opportunity of giving the youth of our nation a meaningful career and means to fulfill their needs and dreams. Speaking about the youth, we need to also keep in mind that the major job crisis is faced by the young adults of middle class, lower middle class and under privileged segments where most of them either do not pursue their higher studies (post 12th) due to scarcity of means or may be sudden family commitments. Working in domestic BPOs become an amazing source of not only constant income but also a lucrative career growth for

these youngsters.

The idea of enabling them to achieve their goals fascinated me and I decided to move from my MNC job into the BPO side. Initial years were tough emotionally when I was looked down upon by some of my erstwhile colleagues and superiors who bore a thought that I took an abrupt decision in my career which will lead me to failure and also by my extended family members who thought "call centre" (BPOs in local language is also called Call centres) is not meant for a career and its demeaning. I did not make an effort to correct any of them that time since my focus was extremely clear. No denial to the fact that there was a huge jolt of cultural difference which I initially experienced post joining the BPO sector however what I also realized was the fact that there is an immense amount of satisfaction when you see these young adults confidently smile at their own achievements and the amount of hard work they actually put in to move up in their career. I found my source of inspiration and energy by touching their lives and seeing them grow up the ladder by sharpening their skills. My vested interest lied in the fact that through my job, I was not only giving back to the society whatever I have learned in my professional life but I also could retain my smile on my face through all ups and downs of life.

Miles to go

EBIXCASH
Global Services

AMARJEET KAUR

'The journey of a thousand miles begins with one single step.' Lao Tzu

I started my own journey on the path of fitness through the medium of Divine Yoga, and what started out as a journey for personal growth soon evolved into a career choice, having a positive and healthy impact on myself, my family, and the clientele I have amassed over the years.

Confucius, a Chinese philosopher once said that "It is easy to hate, and it is difficult to love. This is how the whole scheme of things works. All good things are difficult to achieve, and bad things are very easy to get."... That was my exact mindset while practicing Clinical Yoga and trying to reap its benefits. Although it did not happen overnight when it did come to pass, the healthy mindset and physical easeness, and calmness

it brought about changed my whole life. That is where I would also like to thank the well-versed and experienced yogis at The Divine Yoga Centre. Who trained me for years straight and guided me in starting my career as a Clinical Yoga instructor as well. Along with the teaching from The Divine Yoga Centre, to further grip my knowledge, to build the practical skill of a Clinical Yoga Instructor, I completed 500 hours of Master Level Training from Shiv Yoga Valley that are under the guidance of Yoga Alliance International and earning the title of a Master Yoga Teacher from the valley.

As an Instructor, I started small. With few women, my age, living down the block or perhaps in the next neighborhood and I started providing them with home visits and providing 1-1 sessions so that there would be no lapse in concentration. Interacting with them, and impacting not just their physical health but even more so their lives, made me realize that mine is a noble cause, i.e making people happier and healthier. Word of mouth spread which lead me to such a huge clientele that includes, business tycoons, politicians, and renowned Doctors and not just taking 1-1 sessions but also being invited as a Health and Fitness Expert at Local Sports Academies, helping children and their parents realize the benefits of Yoga.

Although my journey started for personal gains, now I have taken it upon myself to help Aware people about the benefits of being physically and mentally fit and how Clinical can be one of the most powerful tools to help you achieve the same goal.

DR. MANISHA MITTAL

Dr Manisha Mittal (PhD)
Founder & Director
Cadenza Cultural Arts Education & Research Foundation

Cadenza Dance & Music Academy (www.cadenzadma.com) established in May, 2014 by Dr Manisha Mittal located in Bengaluru (registered "UDYAM-KR-03-0146025") has trained thousands of students in Bengaluru and across the world through online and offline teaching platform in multiple art forms and conducted several cultural events and dance & music festivals such as Ankle Bells Dance Competition (Gwalior), Cadenza Natyanjali Festival, Celestial Awards (Bengaluru) etc.

Awards & Achievements

Being a leading artist, Dr Manisha Mittal is honoured with several National and International Awards like "Maharaja Agrasen National Award" 2003, "Prabhat Ratna Alankar" 2006, "Konark Nritya Ratna" 2019, "Kalinga Samman" 2020, "Natya Visharad KL Malaysia" 2019 etc, she keeps exploring ideas to make cultural art field more interesting and popularising among people. For her contribution in Art field, she is recently awarded with "Bengaluru Women Achievers

Award 2022" by B-PAC ([www. https://bpac.in/](http://www.https://bpac.in/)).

Education & Leadership Founder & Director of CDMA, Dr Manisha Mittal (PhD in Curriculum and Pedagogy for Dance Education in India) has worked on art curriculum framework and having 23 Years of experience in field of performing arts (teaching & performing). Having a Master's Degree in Environmental Science from Jiwaji University, she is specialized in Bharatnatyam & Kathak (Indian Classical Dance forms) and a regular performer at major festivals in India and Abroad. Under her guidance on teaching methodology and curriculum framework, several art professionals mentored thousands of students in multiple art forms at her academy at Bengaluru and in other academic schools across India. She herself heading Performing Art Department in a reputed International Baccalaureate (IB) Curriculum School in Bengaluru.

Vision & Mission

Being a researcher & explorer, during her teaching experience Dr Manisha Mittal realised the gaps in examination, evaluation & certification process in Art Education and she established CCAER Foundation (Reg. sec 8 (1) U92490KA2022NPL159967) with a unique vision to find the best solution for this problem.

Her Vision of "Cadenza Cultural Arts Education & Research Foundation" (www.cadenzafoundation.org)

- CCAER Foundation is a registered company under the Ministry of Corporate Affairs, sub-section (2) of section 7 and sub-section (1) of section 8 of the Companies Act, 2013 (18 of 2013) and rule 18 of the Companies (Incorporation) Rules, 2014
- CCAERF is the FIRST IN INDIA foundation of its kind and is established with a very significant aim of art education.
- CCAERF offers a very unique training and certification program for art teachers who are willing to teach in academic schools following NEP guidelines, that will craft a new visibility for school teaching job & opportunities for art professionals.
- CCAERF provides an academic certification focused on systematic and periodic evaluation of learning outcomes after a training program related to art forms with their aesthetic, theoretical, historical, cultural and educational perspectives.
- CCAERF evaluation process focuses on performance/ presentation and thorough knowledge of the student over the subject who went through a traditional learning and rigorous practice along with a step towards higher education in Arts.
- CCAERF offers courses in art techniques, pedagogy and fields related to artistic process, which enables students to develop interests in studying arts with educational perspectives and prepares them as refined Performers, Scholars and Teachers.

SUNAINA MANERKER

A luxury lifestyle hotelier with 22 years of hospitality experience in hotel operations and pre-opening excellence. Professional expertise includes brand experience, market-driven strategic planning, turnaround specialist with execution, financial management, teambuilding, ownership handling and concept innovations along with general administrative management.

While growing up in Delhi and studying Commerce for my higher education, I never had a plan to join the Hospitality industry and stumbled by chance. My career started with rooms division, then Sales, and today, as a General Manager, can look back with pride on

22 years in the hospitality industry, in the luxury space. Prior to joining Grand Mercure Mysuru, I was the General Manager at Lebua, Lucknow. I have led successful assignments with other international brands like Le Meridien, Westin and Ramada, besides pre-opening experiences with IHG and Alila Hotels and Resorts. In the past 22 years, I too had to break through a glass ceiling which forced women to work harder or give up on their career early due to family commitments. However, today, we live in a changing world, with more women following their dreams and chasing their passion to lead. The hospitality industry is acknowledging and appreciating their spirit by creating a culture that gives opportunities to such women.

It's my heartfelt wish to see more women take on top management posts in hotels, and my advice to young women joining the Industry is: "Be yourself, work hard, and have the ambition and determination to achieve your goals. Nothing is impossible"!

GRAND MERCURE

MYSORE

SONI GAUTAM

Soni Y Gautam.
Baccalaureates in Commerce, Management
CEO & Founder of Max Global Trade Pvt Ltd.
Mumbai, INDIA.

Award winner of Industry Leaders Award 2022 in the category of Women entrepreneur in men's Grooming Industry

Soni Yash Gautam an Indian philanthropist CEO and founder of Max Global trade Private Limited also an award winner of Industry Leaders Award 2022 in the field of women's entrepreneur in Men's Grooming Industry. Being born and brought up in Mumbai was always supported by her Parents that made her more confident. A strong believer of innovation and passion and quotes that "Success

comes only when you can prove yourself and create a place for yourself between the crowds." We being today's entrepreneur need to understand that it is buyers' market, and we need to stand out from all the competitors, so innovation is a way out. Being a successful entrepreneur and having perfectly mastered to conquer Global trust in men's grooming industry. Soni Gautam has set her goals and achieved them with dedication and hard work. Proudly says "we are MAX-G"... manufacturers and suppliers of Men's grooming products. USP of her company lies in providing paraben and sulphate free formulation, giving an opportunity to the mass consumers to purchase skin friendly products in a very affordable price .Max-G being an Indian company understands the hard work, emotions that men faces and herein promises less time consuming shaving products with added exotic fragrance to every dedicated father, son or husband those who don't have time even to look into the mirror and groom themselves. EVEN MEN HAVE RIGHT TO GROOM THEMSELVES. Believing in being innovative & passionate about her work that makes her company an iconic brand. The motto of her company is caring, responsibility and excellence. Soni Gautam says that as entrepreneur we are here not only to derive gains but to give back a part of the profit we earn to create a better world, weather it may be through charity or guiding a needy. She has set a mission for her brand Max-G to support the charitable organisation with some part of the revenue to create a better world, herein she states that Almighty is your partner in your business...when we understand this than there is no looking back. This journey at the very outset was not very easy for her too, there was a disbelief among those who knew her. The next challenge was finding right people to believe in her dreams but it was her husband Mr Yash Gautam who strongly supported her to achieve her dreams of being an Indian women entrepreneur in men's grooming industry. She choose to work for Indian mass & did understand how important it is for a mass to be economical and also save time and money with less time devoted for grooming. MAX-G is certified in Manufacturing, MSME, ISO 9001:2015, International Accreditation's, and IEC certification .Aims in increasing the supplies in exports to 160 countries across the globe. Soni Gautam dreams MADE IN INDIA products to be highly acknowledged and preferred throughout the world so that we can increase our forex reserves that would contribute to make India Sone Ki Chidiya Once Again.

SMITA CHOWDHARY

Ms. Smita Chowdhary is the Principal of Prarambhika and has been in this position barely for the past 5 years. Before this she was the Vice-Principal for 4 years and before that, she was a senior English teacher for 4 years.

Smita is passionate about her role as an academician and speaking to her for just a few minutes is evidence of her keen enthusiasm and deep knowledge of the industry. She has participated in numerous conferences as one of their speakers, and has had a hand in the NEP 2020 implementation strategy. Her key strength is comprehensive evaluation of students and her comprehensive understanding of academic processes and methodology puts her in a crucial position to implement new teaching – learning strategies in her school. During COVID she was called on by several

school heads, to exchange ideas on protocol and best practices. Under Smita's guidance, Prarambhika went online 100% a mere 2 days after lockdown was announced. In 2022, Times Excellence in Education ran a statewide survey keeping online classes in mind and Prarambhika ranked 2nd in the Bihar state list of 350+ schools.

Prarambhika Titli, a free school run by Prarambhika Educational Trust is Smita's dream project. The over- all development of the weaker section of the society is what this project actions.

Under Ms. Chowdhary's guidance, Prarambhika Educational Trust has recently launched a very strong and robust sports module in their school. Their sports academy, ALPHA has the mission to develop and encourage sportspersons from the absolute remote corners of the state and to send them to represent the state and eventually the country. Smita has never been a sports person herself, yet she recognizes this gap in the society and is working tirelessly to encourage children, girls especially, to take on sports more seriously. Right from arranging sponsorships for these girls to convincing their parents to let them play, Smita is on a war-footing to make this count! Professional coaches, full sized fields, adequate equipment and above all, the opportunity to play sports seriously is what ALPHA offers under Smita's leadership and belief- that sports is an equalizer.

A voracious reader herself, Ms Chowdhary is always looking for ways to encourage reading in her school. Read-a-thon was a successful campaign she launched. Amongst her other note-worthy projects are PACT (Prarambhika Against Climate Threat), Medici (A cross-curricular project on the medical industry), Tribute to ISRO and currently, Himmat Hausala Aur Samman (Prarambhika's tribute to the Armed Forces of India).

Smita lives in Patna with her husband Sumit Prakash who is a keen golfer (handicap 10) and her two daughters- Aadya and Nikita.

SHAMPI JAIN

About Shampi :

A Young energetic 30-Year-old Entrepreneur. Has established Global IT Staffing and consulting Company in past 6 Years. Started in 2016 in United States have expansion in 5 countries by 2022 with the team of more than 85 employee in India and 120 in Unites state.

Belong for Middle class family to have worth of 500 million company in past 6 years currently by given employment to n number of people

About SystemoneX

A Go-to Strategic Recruitment and Consulting Partner SystemoneX, a frontrunner in the recruitment and consulting space Globally Including India, USA , Canada, UK, Dubai, Australia is playing a vital role in helping IT organizations employ the best. Its team of skilled recruitment professionals spares no effort in handpicking talent that matches the client's expectations, enabling them to optimize their workforce.

As a specialist recruiter for the IT industry, SystemoneX

provides end-to-end staffing, consulting, and software development services in cutting-edge technologies, not limited to Java, Python, .NET, Ruby, Hadoop, and ERP software, such as Kronos, PeopleSoft, Lawson, and Workday.

When it comes to staffing and outsourcing, SystemoneX is adept at providing the most suitable candidates for outsource project development, onsite resource deployment, and off-project completion, on a reasonable budget within a given timeframe. Its internal recruitment team understands client requirements and extends a hand-holding approach, whether it is implementing software or simple consultation.

The SystemoneX team proactively sources and screens, followed by interviewing to evaluate potential candidates. They maintain a pipeline of prospective candidates to consider for hiring to fill open positions. Pre-employment background checks, fingerprinting and documentation is completed for candidates by the team.

SystemoneX's global clientele includes companies in IT, banking, healthcare, airlines, and finance. It has placed more than 550 candidates for different customers throughout the U.S. in last 6 Years

With its versatile team of software trainers, SystemoneX goes the extra mile to provide training services for potential candidates to bridge the skill gaps and meet client needs. A case in point was a Triple-A software firm that needed about seven Python developers. The client required candidates on both contract and a full-time basis. The recruitment team hired candidates from the market based on job criteria, internally trained them, and deployed them on job sites.

Another notable asset is SystemoneX's strong footing in facilitating advanced software development and consulting across the U.S. and Canada. It has carved a niche in Kronos consulting and has in-depth Python development expertise. More than a hundred of its specialized developers work for in-house projects across multiple client locations in the U.S. to implement Kronos and Python, assisting them in product support and development.

Driven by the breadth of its IT service capabilities, SystemoneX aims to expand its footprint in the Europe and New Zealand in two years, and will continue to set a benchmark as a sought-after staffing and software development firm in the recruitment and software consulting domains.

Pull Quote: "We are a trusted and reliable recruitment partner helping our clients succeed in attaining their hiring goals."

RESHMA SHAH

"Students are who bring me joy. Their ability to grow and learn daily inspires me to continue to do what I do. Watching them try and fail and then success is a gift that I witness every day." Suryabala Patel, my mother, a wiry person, reiterated these words in her local Gujarati whenever I asked her why she became a teacher. My childhood was a complete roller-coaster ride. My father, a passionate musician, took his last breath in front of me when I was just 23 years old. A fact that no one believes is that I was never a brilliant student. I was a slow learner; adding to that, early family responsibilities on my shoulders tried to bury me, but I did not succumb.

Born in a house with two elder brothers, managing daily errands and dealing with high school studies, especially mathematics, was as difficult as climbing Mt. Everest. Watching my mother get up at 5 am, cook meals, leave for school, get back home late and exhausted, and repeat the same cycle was my primary concern and motivation. Giving up on academics was never an option; my entire family was full of teachers and professors. Following my mother's footsteps, this year, I have completed 28 years as a Social Studies teacher for the senior grades at Children's Academy and 22 years as a successful mother

of 2 annoying but responsible sons. I still need to find out which one is a more significant achievement.

Talking about my expertise, History tells us about the future. If we apply this knowledge to the present, governments, businesses, and individuals can learn lessons from past mistakes or successes and make informed choices about their futures. For example, economists might compare the causes of the recent recession with past economic crises, like the Wall St Crash, and work with politicians to avoid them happening again. On the other hand, Geography is "the mother of all sciences." Geography was the first field of study. People started studying geography when they wanted to know what was on the other side of a sea or mountain. Due to this, people discovered many valuable resources. Cultural geographers usually study transportation networks, cities, and peoples' way of life. Physical geographers study the terrain, landforms, and landscapes. It is a remarkable subject that combines the knowledge of several fields so that researchers and scientists can better understand this beautiful planet. The future of these two fields is brighter than ever as we transform into more modernized lives every day.

The Covid-19 pandemic temporarily changed the way of the teaching-learning process. What keeps me returning to the classroom are valuable chances to be inventive. I love investing energy in pondering better approaches to build up concepts and ways to assist students with seeing associations between points. It's exciting to have the option to plunge into a new course or work on further developing what you have done before. We genuinely mean it when we say this - no two days are something similar! Assuming you fear the monotony of working in an office and desire assortment in your everyday life, then, at that point, educating is ideal for you. At the point when you're an educator, consistently will give an alternate arrangement of difficulties to keep life intriguing! It'll fill you with enthusiasm, and you'll be anxious to get once again into your classroom every day.

Picking education as a calling is undoubtedly challenging, but it offered me the chance to work in a pleasant environment. Not exclusively will you function as a feature of an affectionate group with your partners, but you'll likewise connect with understudies and guardians daily.

I am an organized individual who likes things at their places. I design a routine for myself every month and make sure that I meet deadlines. I firmly believe in Kaizen, which signifies continuous improvement. I am a teacher professionally, but deep down, I am just a student who is always keen to explore more and grow every day. Sometimes, it mesmerizes me to see these new generations being extraordinarily good at technology.

Today, I am a 50-years-old lady who wakes up at 5 am, cooks meals for my family, and returns home after extremely tiring days at school. But I have no complaints. I am following my passion, and I promise to continue doing so as long as possible!

This would be the best opportunity to quote Mr. John Dewey as he says, "Education is not preparation for life; education is life itself," because learning may begin in the classroom, but it certainly doesn't end there. Teachers set up the signs for the road ahead, which is life itself. They inspire students to learn wherever life may take them.

PORTIA PUTATUNDA

Planet Spiti Foundation was started by Portia Putatunda, a former Media Professional with over 10 years of work experience with top News Powerhouses in the country. She quit her job with the CNN-News18 in 2019 and started her social work journey. She was always a wanderer at heart with a heart to give back to the society. So, she would often carry books and stationery for children on her solo trips to offbeat locations in Sikkim, North Bengal, Rajasthan, Uttarakhand, Himachal Pradesh, and Punjab. Soon she began to realise her true calling is in educating and transforming the future of this high-altitude desert region surrounded by the Himalayas on all sides called the Spiti Valley. Post the pandemic, she was in the valley and started to run a small library and a primary learning centre. Before she knew what lies ahead, Planet Spiti Foundation was already born. Under this foundation, Planet Spiti Foundation has identified rural school girls and boys in 75 different villages of Spiti and over 150 villages in Lahaul with low female participation in education. PSF's single-minded focus is on providing quality primary education to rural children who have no access to school education, hygiene, health care because of lack of schools, or funds, or motivation. Planet Spiti has identified problems plaguing young children's

primary education in Lahaul and Spiti district of Himachal Pradesh and has developed a fun learning model that overcomes these problems viz. the Planet Spiti Residential School model.

Under this model in early 2021, PSF established connection with the rural children and their parents, deliver books at their homes, conducts Spoken English, English reading, singing, reciting, art, and English writing workshops in rural villages, tutor children from classes UKG - 6 at the single-teacher Primary Learning Center in Kaza with high concentration of children in the 2-13 year age group.

These young children started to reap benefits from the learning center approach as it is near to their homes. Thus, Planet Spiti takes the school to their door steps. The Foundation conducted several educational workshops based on History, Literature, Music, Dance, Sports, Society, and Drama on a regular basis through play-way methods. The Learning Center is also house to the PlanetSpiti Library that makes fun learning through books, maps, pictures, dictionary, documentaries, films a part of another fun-learning everyday.

In April 2022, Planet Spiti Foundation opened its gate to the first batch of free residential set up of Planet Spiti Residential School with three underprivileged children living with Portia in Kaza. It was started with an aim to reform the educational system of Spiti Valley. PSRS Alternative School has now expanded to a bigger eco-friendly campus in the World's Highest Motorable Village of Komic to run its classes and house students from Nursery to Class III by early 2023.

In no way is Planet Spiti a conventional learning space but a safe haven to pursue social, practical, traditional, environmental knowledge, life skills, and values. The campus aims to become fully solar-heated and solar-powered where students can learn ancient Spiti history, music, dance, along with modern academic knowledge. Our aim is to build leaders and that is why the older students will engage in managing, running, teaching, and maintaining the school campus.

Spiti Valley is a high-altitude desert region surrounded by the Himalayas on all sides with a rich history and culture influenced by Tibet, China, Ladakh, and Central Asia. The Valley was closed to the outside world since 1959 to the early 90s. Recent decades have witnessed much national and international tourists and some development. Planet Spiti Foundation strives to build young Spitians and other locals, particularly those from an underprivileged background, with the skills, practical knowledge, perspective, and a boost in their confidence to create a sustainable future in the valley.

NEHA TRIVEDI

Neha is professionally a Corporate Planning Manager and Product Head at Servilink systems limited. She is a Finance graduate and has 10+ years of experience as Techno-Commercial Manager. An IIM Alumni who is a master leader and with her constantly learning nature she is currently pursuing MBA. She is a strong single parent to a daughter but hasn't met her since past four years, as she is in USA with her father. She is a warrior and truly an inspiration for so many women out there who are working alone to build their career & life successfully. It was at the age of 30, that she got divorced and then decided to focus on her career & achieving her dreams. She is an IIM Alumni and is now pursuing her MBA.

Her journey to what she is today began in 2018 and she is going really strong and is a force to be reckoned with. She has always been a fighter in her life and has never backed down no matter what. Going into depression due to tragic events that happened one after the other only put a pause on her for a while but couldn't stop her. The saying 'A diamond is a piece of coal that did well under pressure' best fits her since, where she is now is a dream for so many out there. Her biggest strength in life has been her daughter and now she has made this her life's motto to help &

motivate people who are suffering from the same problems.

She is a wholehearted person by nature. When in today's world an individual is more focused on the life of their own, Neha provided a helping hand to the underprivileged society. The only thing she was ever sure of in her life was to have her own NGO and to see the smiling face on underprivileged society. Her friends have been her huge support throughout her journey and they have been with her no matter what. The Directors of Swasthaym- Ankit Chaurasia, Neha Trivedi, Bhavin Jani, Premal Patel, Maitri Pandya, Mayank Tank and Utpal Rathod, would say we have never been this happy and peaceful as we are today by helping people.

Swasthaym- A dream of a 5 years old came to reality 27 years later when she decided to not only excel in her own life but also help those who are unable to help themselves. Swasthaym was incorporated in 2021 and in only a span of 1 and half years it has fed more than 5000 labours and provided groceries to more than 200 and sponsored education for more than 12 children. Neha feels Swasthaym is her life and wants Swasthaym to be a legacy that will stay forever. She is the most optimistic person that you will ever meet and nothing can describe this better when she said, "I would say always think positive and be grateful in life. With any failure, there is always a path and lesson to find success. Learn from your failures and always have never giving up attitude. Being grateful will change your life drastically. Managing social work and professional life is not possible if you're not passionate about both. I love my professional work space and get peace with what I do at Swasthaym."

Neha's Success Mantra: "My success mantra is be passionate in whatever you do. People call me a workaholic and yes, I am a workaholic person. I just love my work and I believe in perfection. Being grateful is the secret behind my success. Be kind, humble and polite with your team and see how your team will stand next to you to make your dreams come to reality. Keep smiling that's the only medicine for all problems. Start living life, make mistakes, have failures, struggle, do new things, and move out of your comfort zone or else one day we won't have any story to share with our kids."

NEETA SINGH

A teacher by profession, I have combined within me the roles of the teacher as well as a social worker/ analyst. A graduate in English Hons. from Lady Shri Ram College in New Delhi I embellished my academic status with M.A. in English from the prestigious Jawaharlal Nehru University. I then ventured to study abroad at York University Canada that enhanced my learning and teaching abilities. I however noted poverty there as well and saw the inequalities. I vowed to work for Women and Development which I started ironically in a potentially developed society. My next stop was Bhutan, clearly the fourth world. Here there were vast challenges as people viewed me as a foreigner with a degree from the West. I formed my own circle and volunteered to get the girls back to school as there was a high drop out rate for girls. Once we took the parents of the girls in confidence, we were able to steer them back to schools. This was a major victory as the girls would have probably never availed of the educational facilities. Now when I look back, it gives me enormous satisfaction just to have

made a difference in the lives of women. I continue to motivate both men and women so that we do not have a huge gender gap given a persistent system of patriarchy.

I am proud to state that I have devoted a whole lifetime to not only teaching and learning but also Mentorship, having been exposed to disparate societies. I have consistently used innovative methods and ideas to motivate all students to strive for excellence. I thus evolved the practice of Partnership in Education so that this would benefit the students as well as the teaching fraternity. The innumerable challenges that stood in my way in fact enabled me to be a problem solver and team player. I was able to do workshops on Motivational Learning as well as Creative Writing. Back home in India I continued to stress on Work ethics and development of Women. Since I became the Convenor of WDC in my place of work I was able to create more workshops on Women's issues such as Safety and legal rights. Our female students have already broken the glass ceiling in their respective professions. This has been enormously satisfying to me as a global teacher.

When I look back I feel that it is our duty to in fact to address the concerns of women who are marginalized and seriously underprivileged. The attempt for women to be self-reliant too is a strong message that needs to unfold in society. All educators need to reach out to people in social Spaces that are vastly unequal in nature. As an educator I will continue to mentor students as well as carry out my task of rebuilding the lives of underprivileged people in society.

MRS. MRINMOYEE DEY

I give birth to MPS 5 Years back and today we are one of the Largest Exporters of Green Chillies in India. Please visit www.mpsdeyinternational.com for details.

MONICA SACHDEVA

"I myself, Monica Sachdeva, won 'Recently women Entrepreneur of the year (Reseller) on 20th Nov., 2022 by Brand Empire at Industry leaders Awards 2022. I believe in Kindness and therefore organization (consisting of my son "Kussh Sachdeva", my husband (Accountant), and my dog Cheeku (My inspiration) and myself 'Monica Sachdeva, Email - puneetsachdeva68@gmail.com, asks for donations of Rs.10, 20 (multiples of 10) I have formed piggy bank for strays welfare. I sung the song "Heal the world by Michael Jackson, at TATA Nano contest in the year 2015 [Talent show] & won lot of admirers but my lyrics were wrong, so I could bag only catch masala hamper. My son gave the beats & I by mistake, turned my back, at the Judges, so at Gurngram's mall, could bag consolation prize. I was interviewed, for my best dish, "which I specified is my creativity of Gobhi Manchurian (Pakora Gobhi & tangy (tomato gravy) we recently launched. I have won 'Pulse' 93, certificate of merit. I missed "Gold medal" in the year 1991 for Javelin, but sports sir agreed to give me. Gold medal but one student of human bio., student (B.Sc.(H) at AIIMS was after sir, as he claimed that my foot touched the line. At AIIMS XXI All India cultural Literary & sports Festival Pulse 1993 and has been adjudged 1st in womens Table Tennis (Team event).

I am a member of 'Isha (since 1995) & Disha (Delhi Indian Speech & Hearing Association (since 2022, September). At AIIMS, I learnt floating in the year 1992 but till date, I could not go beyond. Sports Secretary sir of AIIMS, saw me playing badminton with the group, consisting of Dr. Mauli, Dr.

Rama Ramachandran (my friend from Pharmacology Department @ M.Sc. student from Madras, Mylapur & presently Dr. Jitender, heading (Pharmacology Department at AIIMS, 2020.

During school life

Won money order of Rs.25/- from van vibagh, Madhya Pradesh for 3 consecutive best question on Trees & their role on Environment. When I was in 9th class (1988) & my letter was aired on All India Radio.

I was part of bamboo team 'group dance and our team bagged several inter school awards, when I was in 5th class. But my maths teacher, did not like me scoring 66% in maths, & criticized & stopped my going to Chandigarh. Still 'our P.T. teacher, Mr. Kapoor, who was encouraging me to enter basketball, team he criticized me slapped me and female teacher, harassed and still I got trophy for the best dancer in the year 1987. My parents, don't support a girl child and therefore, did not preserve my trophy'.

Right from 2nd standard, I have flower arrangement & till date I maintain my small nursery (inspite of the fact, that I have been given steroids, empty stomach and lot of drugs, to limit my hand movement (as I have mastectomy (left) (which was done 1½ year ago).

At Rajeev Gandhi, hospital, the trio forced me to Covid ward under (few ill minded doctors and staff gave me steroids, when I was on empty stomach), played with my life, researched on me, without my permission 'Suction tube was entered in my dry mouth, again & again to take out so allied dry phlegm (non existent). I had to undergo 100's of blood test (painful from fingers & arms). Result, my brother had to arrange for 2 units of blood.

Still blots, don't create havoc's in my mind as was giving me unknown injections of Rs.200 (without revealing, what he is giving). Result my reports were sent to USA). They were laughing at my husband (foolish) and they were instructing Pushpinder (over friendly to females and men,

My present Scenario

However, till date, I want to participate, in the fashion shows & dance & sing. I am attached to 'hindu Samaj, reiki association, Pundreek Vihar ladies club (known for my dance skills, 3 days, post surgery of researched port tube kept in my right breast (scars are still there). Still I danced (slowly on this Karva chauth party. I am still attached to Brahma Kumaris and Barey Guruji and also Mauritius group.

Last but not least

Since I scored 99% marks in Sanskrit Board I keep learned new languages like improving proficiency in Punjabi language and writing answer to the question 1) What is the total land available in India? What is the percentage is of use? And my answer is total geographical area of India is 3.28 million sq. km.

2) Land use data available is only 93% of the total geographical area.

So life must go on.

I launched on this Diwali 2022, First aid box with a Zing for him & her with a zing (inspiration was my son 'Kussh Sachdeva, 1st year Medical Student) and helped by one of my gynae friend over the telephone for 5 minutes and held the gift exhibition on Diwali for one hour. Also at Dilli Haat, my exhibition for 15 days for multi hub was put up for in the year 2019. I have put up a multi hub stall at Bal Bharati, Pushpanjali in the year 2019 December. Still I have invitation from Bal Bharati School, Rohini for putting up a multi hub stall at their winter carnival.

I believe in achieving all rounder of the year award

MELISHA JANICE

Ms. Melisha Janice hails from God's own country and is currently working as a French Teacher at Birla Public School in Doha, Qatar.

She is a second-generation teacher from her family noting that her parents worked actively in the field of education for more than 25 years. She has completed her Master's in French from Madurai Kamaraj University where she topped the class as a gold medallist. She has also completed her Bachelor's in Visual Communication from the prestigious Loyola College, Chennai.

Coming from a rich educational background and equipped with academic degrees Ms.

Janice took a quick liking for teaching. She started her teaching career by reaching out to the under-privileged children at Chennai as a part of social welfare program from Loyola College. It is here that she realised her true calling. With the passage of time, she started teaching under-graduate and post graduate students. Currently she handles classes for the primary and was also handling middle school for 5 years at Birla Public School. She has a unique style of teaching that resonates the needs and demands of the modern world.

Ms. Janice has a student centric approach that fosters creativity, self-confidence among children. She is an energetic and motivational teacher at the classroom level wherein she teaches an academically diverse group of children. Even when the pandemic challenged each one of us, she ensured that the lessons delivered through online classes were simple and lucid.

In this fast-moving world where it is easy to get lost Ms. Janice understands the importance of empathy and goes beyond the four walls of her classrooms in reaching out to the students and helping them in their academics by interacting with them in person or through online classes.

ACHARYA VAISHALI SINGH

Dedication, hard work and passion all strive from Acharya Vaishali Singh, owner of the Mahaasagar Vastu. She at a very young age believed that education has the power to bring change. She was very passionate about Occult Science, which led her to explore as much as she can in this area. Her enlightenment towards Vastu began more than fifteen years ago. She has been attaining academic excellence and intellect in Vastu since then. While exploring and learning Occult Science, she also attained expertise Tarot Card Reading, Vedic Vastu, Advanced Vastu, Pyramid Vastu, Astrology and Numerology.

As a Vastu consultant she works with her clients to balance the five elements of the house that lead to the ultimate stability in the household, factories, or

commercial areas. To balance these five elements, she applies remedies required within the specified building/area. These remedies include different types of metals, different colors in different parts of the house. All of this is performed by her without any demolition of the house leading to amazing and astonishing results. Due to her expertise and knowledge, she can check the vastu of various places like factories, residential areas, commercial areas, industries etc. She has also been recognized by myriad certified Vastu Consultancies all over India. She has received the award of Vastu Grand Master and received the remarkable title of Acharya.

Her natural positive approach is liked and captivated by many. Her natural aptitude in this field results in her confidence and her clients having utmost faith and belief in her and her work. In this field of work, she understands that there is no single strategy of work or remedy that will work in every household/building/area. She takes notice of each condition and studies in detail to gain understanding of each and every aspect because she knows that every household/building/area is unique and different and only then advises with personalized remedies for it. This has led Vaishali to have a good clientage not only in India but also overseas. She works in several countries, spreading her work through different events in abroad which shows her determination and consistency in her work, due to which she has many of audience there.

She uses Numerology and Astrology very effectively to balance the stars of the household/building/area. This combination of Vastu, Numerology and Astrology has proved to be very effective, beneficial, and prudent when applied together. Her passion besides Occult Science has also been in interior designing. She has also been active in this field of work for a long time during her early 20's.

MAHAASAGAR VASTU

ANSHU BHALLA VIRMANI

Anshu Bhalla Virmani

"22 years of Corporate experience in IT Sector, Director in US MNC, Member of CSR and a Mentor"

"Leadership is not a person or a position. It is a complex moral relationship between people, based on trust, obligation, commitment, emotion, and a shared vision of the good."

Anshu Bhalla Virmani was born in Punjab and lived in various part of India (Bihar, Punjab, Uttar Pradesh, Uttarakhand, Delhi and Haryana) to complete her studies due to her personal situations. Her childhood was not that easy as she lost her mother at the age of 10 years. Despite roller-coaster life, she was always keen to become independent and had a dream to become a successful corporate professional. She holds master's degrees in Mathematics (1998) and Computer applications (2001). By the time she was ready to work after completing her studies, global market recession rolled up and there were no jobs in the market for freshers so all her dreams were shattered which made her feel like a huge failure. That time, she had options either to get into teaching or work in a BPO as customer care executive. For BPO, she always got rejected due to overqualifications and getting into teaching was not the good option aligned with her dream. But she kept her motivation high and believed in the following thought: "I don't believe in failure and I don't believe in competition. The only time

you can fail is when you stop, and the only person you should consider competition is who you were yesterday."

With firm determination, hard work and desire she started in a small firm of 8-10 employees and finally got a job in MNC after lots of struggle for 3 years to fulfill her dreams and from thereon there was no looking back. She made rapid progress in her career and was deployed to UK and Europe for various assignments. She worked there for three years and enriched her knowledge as well as experience. Having versatile experience in different domains and projects across the globe (UK, Europe, USA, Australia, Canada), helped her to grow in her career and become an expert day by day. She was thoughtful in adapting different cultures which inspired her a lot. Slowly and steadily climbing the ladder, she had rich IT Corporate experience of 22 years and is now working as a Director in US based MNC. Apart from her day-to-day job, she is also participating in extracurricular activities and working as a Mentor for her juniors and peers in the organization she is associated with.

- She participated in company-wide mentorship program to train junior executives to be effective in their job and project work.
- She mentored new recruits providing onboarding orientation seminars and conducted group and individual training sessions.
- She has mentored peers and her team members with agile project environment.
- Participated in year-long one-on-one mentorship program.

It is not that she is completely engrossed in her career only. She has always been an enthusiastic and active member of CSR (Corporate Social Responsibility) group in all the organizations she worked with and was awarded multiple times. She participated and led in various CSR activities like:

- Fund Raising for underprivileged Kids where she raised fund for Rs. 3 lakhs by selling diyas and candles during Diwali festival.
- She also organized sports activities like badminton, carrom, chess etc. for fund raising.
- Serving handicapped kids
- Tree plantation
- Taking sessions on Hygiene and Health care
- Running Chabeels
- Various types of Donations like stationary, clothes, food items etc.

All funds raised were used for the growth and development of the kids in NCR.

On personal front as well, she is associated with multiple NGOs. During weekends, she makes sure to spend time with kids who are in need. She has played a great role in mentoring underprivileged students by teaching them various subjects like

- Mathematics
- Science
- Enhancing their IT Skills and helping them to create presentations and share in front of corporate crowd.
- Providing Career Counseling
- Birthday celebrations with kids

She is a professional lady who stood up with self-motivation and self-belief and hope to serve the world with her matured innovative thoughts. She strongly believes in:

"Success isn't about how much money you make; it's about the difference you make in people's lives"

AR.P.SITHA MAHALAKSHMI

P.Sitha Mahalakshmi
Architect, Entrepreneur, Researcher

Turning people's dream of their spaces to reality is one of the noble ways to share happiness to people, and society in return. And these spaces when envisioned to be sustainable partially or completely is a help that we do it ourselves, to the environment and to the future generations. A built-up space is always in the present, history of the past and should be the inspiration for future.

Ar.P.Sitha Mahalakshmi truly believes by heart and soul that creating spaces is not just her profession but her passion. Every time you have a conversation with her it's for sure that her passion gets rubbed over you. Being an Architect didn't satisfy her thirst to give back to the society. She found ways to sensitise her eyes and services towards the environment which lead her to pursue professional post-graduation studies in Sustainable architecture. During her course of journey till date as an Architect she gained her expertise over varied scales and categories of projects ranging from a bachelor pod to commercial retail spaces, community centres, office spaces, shopping malls etc.. Growing up with humble life values which she always dedicate the credit to her parents she always believed that knowledge sharing is a virtuous way of giving back. This led her take up responsibility of teaching and mentoring students as Assistant Professor, Supervisor, guest or visiting faculty, Jury Member, Guide

etc. with colleges and universities. She says that spending time with younger generation always acts as a catalyst to her thoughts and that she learns a lot from them.

Ms. Sitha worked with top ranked architecture colleges, major organization of India working towards sustainability, many voluntary organizations in India such as ISHRAE, Indian Building Congress etc. She held responsible positions Such as Women Chair, CWC member, Treasurer (IC), Deputy Manager- Business Development, green building rating and reviews etc in these organization adding value to her profile and contribution to the organization as well.

She is certified professional with Green Building ratings such as GRIHA, IGBC, GEM. She audited building on behalf of GRIHA Council for certifying for GRIHA Rating, She is an ECBC expert and also ECBC Third party assessor for certifying buildings for ECBC compliance in Andhra Pradesh. She has audited quite a good number of small, medium and large scale project which include- Educational institutions, Schools, colleges, Convention centres, retail outlets, Office spaces for ECBC Compliance certification in Andhra Pradesh contributing to NDC and responsibility towards environment and encouraging sustainability.

She worked as Consultant-Energy area, at ECBC cell Andhra Pradesh, on behalf of Administrative staff college of India, playing a crucial role for implementation of Energy Conservation Building Code (ECBC) in Andhra Pradesh. Her role involved leading a team for ECBC code implementation, preparation of necessary G.Os, and amendments, Capacity building by training professionals like Architects, Engineers, Government officials, MEP consultants and various stake holders of construction industry etc. on ECBC code in Andhra Pradesh.

She also worked with GRIHA Council as Deputy Manager looking at Business development, Capacity Building, rating review, development of Green Building rating and also as a Subject expert trainer providing training to stakeholders and students on GRIHA ratings and review processes. She also reviewed several large scale projects for GRIHA rating pan India.

Her unending passion and responsibility towards society and environment encouraged her to work towards research in Renewable Energy which is the most crucial aspect and need considering the current scenario of the environment and the goals of INDC and COP 26

She is currently enrolled as full-time Ph.D.Scholar with School of Planning and Architecture Vijayawada (SPAV) with her research going on in "Innovations in Renewable Energy". She is Founding Partner of PVL Design Studio that offers sustainable design and construction solutions, and consultancy services for green building rating and certifications to Owners, Architects, and MEP Consultants along with providing bio-climatic passive design strategies for spaces to be environmental and occupant friendly without compromising on comfort levels.

Registered with professional bodies such as Council of Architecture (COA), Indian institutes of Architects (IIA), Indian Building Congress, Indian Green Building Council(IGBC), Indian Society of Heating, Refrigerating and Air conditioning Engineers (ISHRAE).

She has been recently awarded with "The Most Inspiring Woman of the Earth 2022" by Swarna Bharath Parivar and International Internship University.

Indian Women Talent Award for the year 2022 in the category of Architect by Nirgia.

DEEPA ALEX

Deepa Alex is an acclaimed professional photographer from Cochin, Kerala. She is also a teacher in her field sharing knowledge of her photography to the young generation as well as all people who would like to learn and improve in Photography. A Mathematics graduate from Calicut university she discovered her love and passion for Photography and made photography her profession after learning from Westford Institute of Film Technology. She loves to capture the freezing moments that will never come back and treasure them forever.. A true perfectionist she makes every click of her unique and works on to make the end result treasured. Events like wedding and corporate

events are her niche and also Fashion, Wildlife Photography, and Product Photography are the areas where we can identify her true magic.

She has a good family support from her Husband Vinu Jacob and two children named Allan V Jacob, Maryann Jacob. Her works have been featured in leading newspapers, wildlife magazines, and fashion magazines across India. Winning Bronze for the One eyeland award for Nature in the year 2017 is just a few international awards added to her kitty.

The only female member of FEFKA stills photographers, the Prestigious Insight Camera Club, Rotary or BNI the list continues. She has proved to be an efficient leader where she has performed many leadership roles in all the organisations she has been associated with.

DEVANGI TRIVEDI

Devangi Trivedi
Aadwee Asset Resolution Company
Vadodara Gujarat

It is said that "Good Things Come in Small Packages"
Everyone and Everybody on this Earth have something different from the rest of the World. We all have our Goals in Life and each one of us is different from the rest in one way or other. I was no exception.

I, Me, Myself:

Born in a Banker Family, I had no plans to get associated with Banks. My hobby was Paintings and I loved doing it and was passionate about it.

I am a very adventurous person and would like to take the risk...careful risks. I like to do creative thing besides doing old stuff again and again. Learning new things is one thing which I have always enjoyed. Stay updated myself with the news. I am fond of reading books which helps me to learn high morals and values.

I completed my Graduation and settled down in Vadodara, Gujarat.

Turning Point:

My Journey as an Entrepreneur was way back in Year 2014. Named after my two daughters...Aashna & Dweeja - myself and my husband established Aadwee Asset Resolution Company. The initial assignment that I started was tough - seizing of tractors and that too in the far off villages in Bardoli, Surat, Gujarat. Being the first assignment, we had to cut on our expenses and therefore I used to travel by the local transportations. I took up the challenge and seized 9 tractors in a day - this first assignment gave me the confidence, and then there was no looking back...

Aadwee - having built the confidence we convinced the Banks / Financial Institutions to become Resolution and Enforcement Agents under SARFAESI Act, which covers recovery of pending dues of Secured Creditors under Immovable Assets i.e. House, Shops/Office and Factory premises - all taken up under legal way.

About Aadwee Asset Resolution Company - AARC

Aadwee Asset Resolution Company (AARC) got established in the Year 2014 to carry out activities under the field of Recovery of Non Performing Assets (NPA). NPA is nothing but the loans that are being given by Banks / Financial Institutions whose Principal as well as the interest amounts have been in a state of overdue status for a fairly long time. When we say "fairly long time", it is 90 days or more than 90 days. Similar to any other business, the banks also should be profitable, but NPA eats up a large portion of the banks' margin. Thus;

- NPA reduces the Profits of Banks/FI
- It reduces its Capital Adequacy
- Banks have become averse to giving loans and taking risks

Factors that Contribute to NPA

The factors that contribute to Non-Performing Assets (NPA) are as follows:

- The bank's lending to the corporations/persons etc. whose creditworthiness is not guaranteed and taking a lot of high risks.
- The banks are not able to diminish their losses by a complete understanding of the sufficiency of the bank in terms of the loan or capital loss at a specific time frame.
- The funds are being redirected elsewhere by the promoters of the companies.
- The banks that try to fund projects that are not viable.
- Not enough means to collect as well as distribute credit information in between the commercial banks and
- Non-efficient recovery of the debts from the overdue borrowers.

Aadwee's Role in reduction of NPAs:

We are now on panel with 18 Banks/FI providing services within Gujarat.

- We render services to Banks/Financial Institutions, for assisting them in recovery of their outstanding dues.
- We assist them in taking possession, extending custodial services, marketing and selling of the seized asset.
- Due diligence and legal vetting of the documents.
- Assisting / liaising with concerned District Magistrate (DM) and Chief Metropolitan Magistrate (CMM) for getting orders for seizure of assets.
- Recovery of dues from the borrowers by way of persuasion, OTS, compromise, sale (including e-auction) or realizing the dues by any means.

Since then it has been a Memorable Journey (...and the Journey is still going on) as the work I carry covers a lot of risk and is less preferred among women - all chances are that I might be the only women who is handling Resolutions of Non-Performing Assets (NPA) within Banks.

DR. SRABANI DAS

Dr. Srabani Das has been working as a Gender Expert in development sector with specialization on Gender Mainstreaming, Gender Responsive Annual Plan focusing on social inclusion, Research Advocacy for more than 26 years. ed to deliver her research at Harvard University. Her strong desire towards creating

JIGISHA GANDHI

Jigisha Gandhi: A Rousing Entrepreneur Influencing the Entire Business Arena

Written by Gulshan Parveen

Being an entrepreneur in today's economic environment is a tough responsibility especially, for a female. But despite the odds, there are always some women entrepreneurs who never give up on ideals and take on challenges head-first by having a relentless drive for innovation. One such resilient women entrepreneur is Jigisha Gandhi, Director of Ami Polymer Pvt. She aspires to become a global leader & emerging women entrepreneur who believes that their industry would be a cause to support & provide women health & hygiene. Her entrepreneurial streak is nothing short of awe-inspiring.

Jigisha is the key role holder of HR management, Finance & Marketing as her marketing statics & management style derives the organization. She explores her innovative ideas for n & many more.ew product development on women's health- hygiene

Ami Polymer: A One - Stop Shop for Rubber Products A leading manufacturing enterprise, Ami Polymer Pvt. Ltd. produces high-end Food and Pharma grade rubber products for Pharma, Biopharma, Medical, Industrial, and Engineering sectors. Incorporated in 1998, the Firm is headquartered in the commercial capital of India, Mumbai.

The Firm well- versed in the formulation of Silicone Rubber products, has been serving the domain for more than 20 years. It takes pride in serving some major enterprises with its exclusive offerings. The Team at Ami Polymer firmly believes that customers are the best assets for any institution. Their best-in-class products with world-class certifications have allowed them to establish strong relationships with their adored customer base. "Our organization supports the growth of our employees through a management culture that encourages communication and training," states Jigisha.

Values and Ethics

Jigisha believes in the quote of Gandhi Ji "Be the change you wish to see in the world." She admires this in both her professional and personal lives. She clearly understands being a family, and with that note, she takes care of the organization as a family.

Jigisha is well aware of the fact that most working individuals never have enough time for their personal lives- as building a career requires a lot of determination and sacrifice. While it is good to hustle, it is also important to take a break from the things that make us who we are.

Employee contentment is the key to the success of any organization. It speaks in favor of the ethical values ingrained in its culture. From rewarding the employees for their exemplary performance from time to time to taking them for recreational activities, enhances employee engagement and productivity. Although many business owners make their employees overwork, Jigisha thinks otherwise as she firmly advocates a perfect work-life balance in anyone's life- be it the workforce as well. For this, she always strives to encourage her employees to leave the office on time, take breaks or don't send emails at odd hours. She fervently attempts to reduce the burden of her employees in the best possible manner and assist them to live their lives to the fullest.

She has been honoured with Bharat Gaurav Puraskar ,Eminent educationist award by KTK foundation and award for Women empowerment in education by Woman

HARJINDER PAL KAUR

As Brazilian soccer player Pele once said that Success is not an accidental. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do. It is absolutely true to a specially chosen one here in Fatehgarh Churian, one of the remote places in Punjab who is perspiring day and night to fulfil her dream.

Her dream is a tree with leaves of DCH - Determination, Commitment and Hard work.

It is a challenging and tiresome job to establish a Group of Educational Institutions step by step and make it to run successfully in the most ignored and under developed locations of the rural and border areas of India, where Educational facilities and civic amenities are nil. Although in India knowledge is glorified as Goddess Saraswati. Education is not only knowledge but also a power whereas, especially in India, it dominates in the hands of men. In the Vedic period women had free access to education; but in the British period, there was a revival of interest in women education. In 1822, during the British Educational survey in Madras Presidency, it was found that there was relative absence of girls' education in formal schools. In the Hunter Commission report in 1881 it was noticed that only 2% of the women in British India were literate.

The slogan of the last century was to create better mothers and wives of the nation through Education.

Educating women in large will empower them in seeking of gender equality, improving quality of life, earning their own bread, narrowing the discriminations at home, work places and society etc. Education will empower them in achieving identity in their social career, economic stability and a happy and flourishing family. SGRD Group of Institutes, Pandher, Amritsar as a prestigious educational institution - considers its mission to provide outstanding education within the Bologna system, to create conditions of education that enhance the students'

academic and personal development by uniting high-level academic knowledge with theoretical and practical education, based on corporate partnerships from outside of the institution. In this global world, only by having a highly professional and open-minded education that incorporates a strong sense of ethics and self responsibilities can one remain competitive. SGRD Group of Institutes, Pandher, Amritsar, successfully incorporate various cultural and ethnic values which enables its students to rise to new challenges anywhere in the world, thus helping them to fulfil their true potentiality. SGRD Group of Institutes, Pandher, Amritsar consider it as a number one priority that the students and staff, regardless of age, cast, creed or background, ethnical or otherwise, are encouraged to embark upon a voyage of lifelong learning and self development through cultural activities, study, research and academic endeavour. All these help us to prepare a well trained labour force.

It is our firm conviction that the structure of our programmes should be cap-oriented, and based on work experience, as well as carefully designed case studies that reflect market realities. This contributes to the development of our students' problem-solving, communicational and presentational skills as well as heightening their preparedness for employment. It is our own speciality that no student is stranded after passing out from here.

Through our contribution of services and active participations in the national scientific and academic life, SGRD Group of Institutes, enjoys the participation, confidence and acknowledgement of the local society and wider public. This is to be of the utmost importance and value it highly. We are very much enthusiastic to be a positive cultural and intellectual force in the community at large. The philosophy, in terms of educational policy, that conceives education as a complex service. The manifestation of our student-oriented approach, experience in a pleasant educational enriched environment with cutting-edge technology, and an outstanding highly acknowledged teaching staff that use up-to-date methodologies and quality course materials. The final aim of the SGRD Group of Institutes, Pandher, Amritsar is to train the future social empowering leaders who endow themselves with a thirst for knowledge and inspiring themselves to strive for professional and human excellence.

The Indian education system is the biggest and fastest-growing sector.

In this modern world to maintain an educational institution is an unconditional task and a challenge in itself.

And last but not least. We used to hear a proverb that behind every successful man there is a woman. Whereas in setting up of SGRD Group of institutes, there is a silent and salient figure in every aspect of growth of SGRD as well as the working force of Dr. HARJINDERPAL KAUR KANG - it is none other than that of our most beloved and respected AVTAR SINGH KANG - SHO. Excluding his pleasant presence and whole hearted support, SGRD might have been an institution without a life.

POONAM SAHAY

Myself Poonam Sahay along with Anil Sahay established the manufacturing plant Marut Techno Tools Pvt. Ltd with Technical JV with Dayton Progress ,USA to produce Sheet metal Die components ,catering to all Auto industries and their tier -1 companies. I am a one of the driving force to establish the company and handling finance, taxation and administration of the organisation. Anil is a Mechanical engineer from IIT,BHU and very rich experience in Manufacturing. Since beginning I was supporting to establish business , devoting time in the company and being the science graduate to learn all the nitty grtties of taxation ,funding etc to establish and run the business effectively. Today Marut is a key player of Die Components business in India competing with

all the international manufacturer. All these products have replaced the imported one. Marut is the first company to get BIS certification. My passion in Indian classical music, vocalist and performed at various concerts in India and abroad. It was one of biggest challenge which I face in my life along with my passion contributed to develop world class manufacturing unit. It has been a my learning journey, managing the Finance and Administration of the company.

I have followed a very customer centric approach to reach where we have reached today. Even after 8 years I still believe that "we are just starting and true potential of Marut yet to be explored". We are first generation enterpenuar to establish the world class manufacturing unit in line with international quality and today our customers are almost all 4 wheeler and 2 wheels manufacturer and their tier one companies. My inspiration is my husband , my strength is my childrens and family and all well-wishers who believe in me.

With regards,
Poonam Sahay

KALAIVANI L

"The happiest people are those who lose themselves in the service of others".

Forgetting our personal woes is easier when we're serving the needs of those around us. For social activist, the needs can be overwhelming. I as an Activist mainly focus on Women education and I am openly interested in the processes of change-making in Education sector and utilises education methods that effect justice-oriented social change. India is now a leading country in the field of women education. Women education in India has also been a major concern of both the government and civil society as educated women can play a very important role in the development of the country. Education is target of women empowerment because it enables them to responds to the challenges, to face their traditional role and change their life. So that we can't neglect the importance of education in reference to women empowerment India is poised to be coming superpower, a developed country within years . The growth of women's education in rural areas is very slow. This obviously means that still large womenfolk of our country are illiterate, the weak, backward and exploited. Education of women is the most powerful tool of change of position in society. Education also brings a reduction in inequalities and functions as a means of improving their status within the family and the society.

Vision and Mission:

-We establish, run, support and grant aid or other financial assistance to children of limited means to proceed further with their education. We organize camps to educate people on their social, economic and legal

rights.

-We conduct awareness campaigns, lectures and road shows to create awareness among the public at large regarding the rights bestowed on them under the constitution. We create awareness among people about rights of the children. We operate helplines to provide support and assistance to victims of social oppression and discrimination.

- We Offer legal support to victimized and needy people among oppressed and economically backward classes. We conduct programs to raise awareness on consumption of nutritional food among urban and rural women and children. We Distribute healthy and nutritional meal to women and children from economically and socially deprived backgrounds.

rights.

--We conduct programs annually for distribution of clothes among needy children. We organize motivational speeches and seminar with an intent to create social awareness. We Conduct programs, workshops and seminars to create awareness on Gender equality. We Conduct vocational courses, workshops and employment generation programs to empower the youth. We promote the importance of education among rural people and further the cause of the same by providing assistance in the form of scholarships and career counselling. Also we Conduct educational and vocational courses for women, with an intent to financially empower them. We do Provide rehabilitation and legal support for victims of all forms of harassment.

-We organize environmental awareness programs to educate the general public about the importance of a clean and green environment and promote tree plantations and organize programs for planting samplings to promote a green environment. We Conduct medical camps at a regular basis at rural locations with easy access for people belonging to socially and economically backward classes.

"If society will not admit of women's free development, then society must be modernized"

We perform all the activities with motive of public welfare. "Change will not come if we wait for some other person, or if we wait for some other time. We are the ones we've been waiting for. We are the change that we seek". While many people may desire change in their own lives and in the communities where we live, only those who are brave enough to speak out and take action will truly see a change. Pointing out the flaws and imperfections present all around us is easy. Looking inward and deciding to change ourselves is more difficult. The first step is always your own Action and it begins with a desire. Naturally, heartfelt compassion leads to action. The vulnerable and disadvantaged in this world need assistance to grow their life more than pity. We need to see love operate selflessly and sacrificially. Even now and then, we meet younger versions of ourselves. We see the mistakes we are making today and wish we could set them on an alternative path. We are invested in the lives of those we are serving. We discover more and more about ourselves every day as we learn to help those around us.

"Not all of us can do great things, but we can do small things with great love".

The attention to the great need for addressing selfcare is the profession of social work. I have experienced a lot of obstacles throughout my career. There have been negative consequences for me both professionally and personally. Despite pursue to prepare myself as a social worker to overcome all these hurdles. Let's continue to educate others and to take action to speak compassionately with those we see suffering from an issue. The lives of our people is as much as the lives of our future nation. Think about that! How can we impart ourselves into the growth of society. Let's bring back a solid foundation of support and care for all workers in the field!

So, Start your journey with social work to get indulged into your soul. Speak up if you want to bring change to the world. Every human contributes to the world in some way, whether through positive or negative actions. We can contribute goodness of light, helping people see hope rather than despair. In turn, they can have hope for positive outcomes in their own lives.

THANKS FOR THE GREATEST OPPURTUNITY...

NIHARIKA VERMA

"The Journey is more important than the destination" "Patience, persistence and perspirations make an unbeatable combination for success." – Napoleon Hill Completed management degree and started professional journey thirty years ago and feel extremely privileged to get an opportunity to work with large corporates, fortune five hundred organizations & MNCs in HR and service sector. The significant part of this journey was that, found my passion and purpose of life at preliminary stages. Majority of my association was with real estate sector that comprises of four sub-sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth in the corporate environment and the demand for office space as well as urban and semi-urban accommodation. Further, Real estate contributes 15 to 17 % in GDP. it is declared the second-highest employment generator. The real estate CAGR is ~10% 2022 -27 furthermore, the expanding e-commerce sector in the country is catalysing the demand for warehousing facilities, which is providing a positive thrust to the market. The focus of the industry is furnishing requirement of infrastructure for growth, people skill enhancement, employment generation, working towards economic advantage with cost optimization, customer

experience and EHS. In the journey came across with opportunities to engage, innovate and collaborate with the people / clients from diversified fields. Over the last 25 years, India real estate infrastructure has witnessed flourishing growth as a result, correspondingly asset management portfolio & responsibility increased with the elevated expectations. In proportion to real estate development viz a viz the available workforce skill set, support it is not very conducive. The path to success was not easy and straightforward. Since, there was no formal institute to impart courses in the domain, hence, we failed repeatedly & as an industry we were on the tough spot. Overcome from the struggle, FM industry has taken front seat, now the pressure was to set goal and work towards excellence. Training, learning, and development became part of the organization. There, was need to employee to be intrinsically motivated & rewarded. Inviting talent engaging and retaining in FM space is quite challenging. Gradually, career progression and rewarding career is helping to attract and retain talent, now the youth is realizing roaring bright future. As an FM practitioner, part of the fraternity, designing solution for client was my prime role with the team. Have done immense work to set milestones, including, automation, mechanization & participation in setting syllabus this has not only created difference in workforce life but was a big contributor in achieving goal holistically. There is great need of services capability, good maintenance & upkeep, value enhancement, environment saving with innovation. It demands continuous collaboration with key stakeholders, CRE, Suppliers, Innovators, Technology, Automation, OEM, last but not the least human capital. 2 We have challenges therefore collaboration is happening in the professional forums, as these were the best place to put across strategic actions. Playing significant role with participation utilizing bandwidth to follow best out of everyone through, innovation, automation and making it sustained for larger perspective yet become competitive. The statistic shows in coming times all learnings to be institutionalized at larger forums, nationally & globally plying vital role to trained and practice value enhancement role for clients not only for India in fact at global forums. Together we are working to establish benchmarking with data analytics, all the data points will augment EHS & sustainability efficiency. Extremely energetic to continue my contribution and cherish each moment. It gives immense contentment to see growth & efficiency during the entire tenure. Journey still continuous ...

V. SOUMYASRI PAWAR

Myself V Soumyasri Pawar, a Bharatanatyam and Kuchipudi dance artiste, teacher and choreographer originally from Hyderabad but settled in Mumbai and later in Aurangabad since the year 2006. I am a postgraduate in Bharatanatyam and Choreography from Nalanda Nritya Kala Mahavidyalaya, University of Mumbai. Presently pursuing PhD in inter-disciplinary subjects of Dance and Drama from Dept of Performing Arts, Dr Babasaheb Ambedkar Marathwada University, Aurangabad. I am also Asst. Professor at the dept of Dramatics and Dance here in the university.

It was a childhood journey as I belong to family of performing artistes in Hyderabad where three of my paternal aunts are eminent personalities in the field of classical dances namely Kuchipudi and Bharatanatyam. Thus, the seed of the dance was sown in me since I was a toddler and went on to enrol myself in a degree course in dance at Nalanda Nritya Kala Mahavidyalaya affiliated to University of Mumbai at the insistence of my aunt and Guru Dr Rajyalakshmi Seth from Mumbai. Thus began my dance journey and studying at Nalanda Nritya Kala Mahavidyalaya introduced me to a world of our vast culture and heritage.

Staying in a big city like Mumbai opened many opportunities as well as collaborations, interactions and thus I met my husband Ramdas Pawar who is an educationist, poet, writer and artist. Our teaching jobs took us to the hills of Mussoorie and Rishikesh in Uttarakhand to Kanpur in Uttar Pradesh, allowing me to spread my dance wings. Got many opportunities as choreographer, teacher and dance therapist in boarding schools, Ashrams and colleges. With the vast multi-cultural exposure and experience behind me, I settled in Aurangabad in the year 2006 and then began my journey of self-exploration and aim of life.

With so much travel and seeing different cultures and best of the amenities in educational and cultural institutions in metro cities, my dream was to create a space where I settle – a modern Gurukul, so thus the idea of Devmudraa came and it became a reality from our drawing room to school halls to our own space now where we have a performance hall, rehearsal rooms, audio-video equipped

library and quality education in dance is given in Aurangabad.

Our institute Devmudraa a movement school is run by Devmudraa Trust in Aurangabad established in the year 2007. It is dedicated to the spread of performing arts, especially classical dance and allied art forms through quality educational courses affiliated to reputed universities in the country and also give exposure to our students from Aurangabad and Marathwada region to the experts and eminent artistes from all over the country and abroad through lecture-demonstrations, workshops and festivals in Aurangabad.

We have students from the small town and rural districts of Marathwada region. In the last fifteen years we have made a name for ourselves in the field of classical dance and performing arts thus giving diploma to post graduate level training in Bharatanatyam and Kuchipudi dance forms, short term course in Dance teacher training, choreography, folk dances, drama and music. Our students are excelling in exams and state and national level competitions and also received CCRT Merit scholarships. We have a professional performing troupe as well as children group attending and performing at various festivals in India and abroad.

Though we had teething problems and had face many obstacles for quite some number of years, as still people are not aware about the seriousness of dance as a profession and they are not exposed to the amount of good and scholarly work being done in the field of dance and art across the country and abroad. But slowly with times and media and internet, things are changing for the better and we are happy atleast we are contributing little to the growth and promotion of our culture and classical dance forms in this area, even if it is amountable to a drop in the big ocean, but making a difference.

My journey and the realisation that Art whether it is dance, music or drama is the strongest communicator prompted us to encourage more and more children and students to take careers in alternative subjects apart from the regular career options. A student with a creative bent of mind can go for such courses but the fear of lack of employment in these fields is stopping the parents to enrol their children in such courses, but getting a university degree or diploma and creating new jobs in this field is our motto. So it is more than a business for us. It is our mission to give quality education in performing arts to the students of this Marathwada reWe give opportunity to each and every student, create a platform for them so that they gain confidence and our students are sent for participation in competitions and also in festivals across the country and abroad too.

We have been already implementing many innovative methods and tools using technology in our institute for the last eight year much before the pandemic happened and the online mode of teaching took a front seat and many technologies and apps developed in the last three years. We have audio-visual room and library, also our students are trained in editing of sound and video apart from the performing aspects. We have our own Website, YouTube channel and other social media platforms and we are quite active and keep promoting our work and also inspire other to join this cause of preserving our heritage and culture. Recently in August 2022, we got subscription of Teachmore, an online teaching platform, through this app we can organize our lessons, teaching audios and videos and lesson notes will be shared and also any student from any where can get access to our courses at their convenient time because of recorded as well as live lessons. So we too are learning and growing!

We had two international collaborations in the year 2020 when the whole world was in lockdown,

1. Our lockdown dance video in ode of Mother Earth which was prepared from the balconies, verandahs, homes of various students in their homes due to strict lockdown with minimal resources and praying for everyone's well-being in the thick of the lockdown was selected amongst the best dance videos on the occasion of World Dance Day in the lockdown by International Dance Council, UNESCO, Paris. It was selected as one of the best videos with limited resources and constraints of lockdown and was featured in their video festival online.

INSPIRUS EDUCATION

When you grow up in a conservative, middle class family, a few things come like a package deal. Value education; lessons in hard-work and sincerity; warmth of family, love, laughter and tears as well as a set of great expectations. Expectations to perform well academically and then get a job that helps you support yourself and your family, while getting you a "respectable" social standing and a sense of well-being.

I was thrilled with the opportunity to join an International Bank, that had a growing Global footprint, at the tender age of 20, and that's where my journey started.

Entered the education industry a good 27 years later. As I went through job changes, the last one being the HR head of an International Management consultancy company, it made me believe, that professional training cannot just begin on the job floor. The exposure must begin early, in the formative years itself. More and more I recollected Margaret Mead's words – "Children must be taught how to think, not what to think". And when we walk that talk, the conversations across the corporate theatre are sure to be richer in ideas, ethical in practice and innovative in stance. An environment that is moving towards a global village will need a work force that doesn't come with barriers of community and cultures.

Clearly, my play field was with the younger minds.

Personally, the challenge was tremendous. My first step into an entrepreneurial role. I realized multi-tasking would not just be about managing two or three clients or personnel, at the same time, anymore. From profitability to corporate governance to staffing issues, even chai ka blues would be all in my days play. But it got me closer to children. It gave me a chance to shape things the way I wanted and most importantly it gave me the opportunity to impact the future.

Inspirus, as the name quite obviously suggests, intends to inspire young students to dream fearlessly and work hard to get to their goals. A one stop shop for international education, our team conducts a thorough research of the international universities that we recommend before engaging students with them. Inspirus Education endeavours to bring opportunities for students across subject spectrums. But that is not where we end our journey. The Inspirus counselors work closely with students and parents to ensure that they are making the right subject choices and the universities they opt for are a perfect fit. We hold in-depth coaching classes, that prepare students for international entrance exams, selection formalities, interviews and documentation procedures.

Quite clearly, at Inspirus Education we aren't just talking about sending out huge numbers to international universities and making a commission, the model involved understanding corporate demand; forecasting future needs; scouting for talent from across India's length and breadth; understanding their needs and enriching them with the right knowledge, ideas and opportunities and finally training them to achieve the goals they have set for themselves.

Over the last 24 years, we have successfully supported 9000 plus students achieve their academic aspirations by enabling them to prepare and succeed in getting admissions to several international universities, across USA, UK, Germany, Singapore & Australia and many more.

At Inspirus we focus at designing class room based as well as tech-based modules. Currently, our tech-based modules are being accessed by over 1,000 students per year. These modules are not just focused at test-prep but also give students online access to our counsellors and teachers to receive one-on-one guidance.

We have a presence in several top-notch schools across Maharashtra and Assam who have demonstrated their trust in our ability to deliver quality education to their students. A critical part of these partnerships includes the delivery of classroom lectures by Inspirus teachers, within the school premises.

Currently, Inspirus has a well-established footprint in the Mumbai metropolitan region, reaching students via our 3 centres spread across Bandra, Andheri and Ghatkopar. These well-equipped centres allow students to avail classroom based learning and practice sessions for GRE®, GMAT®, SAT®, ACT®, UCAT, PSAT®, TOEFL®, IELTS® and other university entrance exams.

We have recently forayed in the North East market and have gained tremendous traction from the schools and students over there.

Keeping in mind our aim of catering to and helping students access quality international education to fulfil their study abroad dream both at the under graduate and post graduate level as well as in new age domestic universities we have expanded to Pune and Indore city as well.

Inspirus students are recognized for their ability to be top scorers, with one student holding the record of being the first in India to get an absolute GRE score of 340/340.

60% of our Masters students receive scholarship support from their respective universities.

All our students get admits to the top100 universities in the world and 10% of these to the top 10

The education industry is not an industry for business ... it is infact a business with a soul, so join in if you care about contributing to the future because we have a great responsibility when we take charge of young people's aspirations. Also remember that unlike most businesses when you take risks here, they must be calculated because your failure can impact a future.

MANORAMA TICKU

Ms Manorama Ticku Dhar is a professional financial advisor with 32 years of experience in the banking domain across different departments where she was appreciated on her acquired knowledge on the finances and been able to guide the customers and businesses to manage their finances in long terms. She comes from the humble Kashmiri Pandit household and became first working women in her family at a very young age who broke the glass ceiling and

was instrumental in contributing to the finances of the household while taking care of the family without home help.

She had realized early on an importance of the financial independence especially for a woman and has been advocating the same at her job as a Senior Executive Manager in an Indian Bank. After her recent retirement, she's actively providing financial advice to people to better manage their finances and secure future.

She is a passionate individual who always strive to excel in a given area with maintaining work life balance and inspires the young generation to do smart management of their finances while enjoying their present and securing their future. She is a true inspiration for the women to step up and contribute to the economy of the world in 50% partnership

RAKHI SRIVASTAVA

What is life?? It is what you have today..... Well, for someone who always dreamt of having a pleasant moments, stable & quarrel free life.....time had some more plans to unfold. Had a sales professional career in a financial giant but that life taught me to choose between happiness & satisfaction...I chose satisfaction. Got married and started redefining satisfaction with each day passing...until my younger one was born. Life took a turn to darkness and

that darkness started new chapters which were left unlearned. With satisfaction getting directly proportional to money, my perception of life kept on changing with each moment spent. But what I learnt the most was definition of THE PEOPLE. Old faces turned new and the new faces became unknown. But, giving up was never a chapter in my book, then and not even now. So, with my knowledge and belief on skills - Viu Naturals came into its being. Hand Made Products, chemical free products and 100% natural products that too which can be customized, made the products acceptable to 3 out of 150 contacts in my then phone book. 67 days gone since the 1st order...and Viu Naturals had ZERO ORDER in hand. But on the 68th day, those 3 ordered, 17 others order (9 where references from the 1st three), somehow we had a hope now and a new push. Today, those 20 client list has brought me to more than 1700 clients across the country and those, then, 2 products are joined by 41 more to bring the products on offer to 43!! Certifications, legal mandates and licenses are the part of maintaining the existence, are crucial, but what is more important are the people - sitting here and even outside that door. This is a new chapter and a new definition

Thank You.

SARADA STEFFI

Power is not given you have to take it : Human life is very short in this earth. It grows like a green grass and dies quickly. In this short period we have to face lots of problem and difficulties, that's why we can say life is full of struggles. It's like a battle that we should face bravely. We should not run away sharing our back but we should fight, step up. Stand out and must share our brilliance with the society. There's a saying- "Power is not given you have to take it." World is not like a home where everything is organised properly. There are so many disturbances, nothing is readymade for us. Never think it's your mother's home, everything is well prepared, well organised, well decorated, warmth of love. But you may find it all opposite to your thoughts, your dreams. But you remember everything is lying around you. Mother nature has given each and everything to you. You should use your own ideas to arrange it and flow like a river in your own way. Just see how a river flows continuously during the day and night. Even there comes many difficulties in her way. She always focuses on her aim to reach the ocean. Similarly we human beings should have an aim in our mind. Do good, think good. Be active in our society. Love your neighbour, create an environment full of peace and love.

Serve people. Help poor and needy. Bring some difference in the society. Bloom like a flower and fill the world with beautiful petals and of course with good deeds. It's not easy to do these all because 'Power is not given, you have to take it.' Let everyone know what you have done. What you are going to do and how you are going to move the organization forward. Whatever ideas you have you can share around the people who live with you. It is important to have a prevention capacity and at the same time a solid capacity to fight injustice. There is a slogan in present India about women empowerment. Women should be stronger, qualified women have to rise against male dominance. That's why Indian Government also has taken a step towards giving equal rights to the women like - save the daughter, give education to the daughter - 'Save the daughter, give education to the daughter'. In every field like - education, arts, music, science, politics, ladies, should stand, very strongly. Constitution also has given equal rights to the women. But firstly women should know her own rights. They should be conscious about it. Education is power, it's like a weapon with which we can fight against the dearth of ignorance. So a girl child should be in good guidance of the teachers, parents for enlightening her own power and position in the society, because a girl child will grow into a great lady in future and she will bloom and show her colours. We should educate the society, teach them how to respect and honour a lady/woman. There is a great challenge to convert the people's thought to be broad towards the female citizens. Already the male people thought that female/old people and children are the second citizen and the male are first citizen. Generally they think so but we can find great thinking or positive minded male also. All do not come in this category. In my belief male and female are the two wheels of a car. If they are equal a car can move forward smoothly but if not, it cannot. So both of them should/have equal position in society. Somewhere, in some cases we can see that the female are dominated by another female person as being mother-in-laws, as sister-in-laws and by colleagues. All these happen because of less awareness. They don't feel that all women are same physically and mentally. Some problems are faced by them in the present world. That's why first we need to create great consciousness in the female world so that they can be able to grab the power - the power of love, patience, belief, hope etc. Every lady should know that 'power is not given, you have to take it.' Naturally women are strong mentally, emotionally, in some cases, physically too. But the most important thing is that they should recognise their internal strength. If every woman knows her power, she can bring change in the world. We know that a woman has power to give birth to a new child and a new life. Similarly women have the power to decorate this world by giving new thoughts, new honour, new vision so that the world become a beautiful place to live safely as a family. Let's live with time management, creativity, positive thinking, physical well being and spiritual satisfaction. All these are possible. The only question is - Will you choose to do so? Always remember it is never too late to become the person you have always wanted to be. That's why, always remember the slogan 'power is not given, you have to take it.'

Thank You.

GIRIJA PAPANNA -NIHAL TRADERS

I grew up in a family of 2 sisters and my father was being a teacher my passion for helping others has been evident since my school days .

Through those experiences I have learned to interact with a diverse group of people, which has increased my ability to relate to others. I have also had an opportunity to Work as Visa Officer at Ireland Consulate that focused on life skills like teamwork, communication, and time management. Covid Era was the lesson for the world where I realize , We

have to focus more on Mother Nature .

I started journey with vision of saving our soil without chemicals (with the help of GEE PEE HARIKRANTI BIO FERTILIZERS) providing education by which character is formed, intellectual is expanded and one can stand one's own feet, bringing humanity as a religion of our "Mother Earth".

I am marching towards a vision with support of individuals, Organization and broadminded stakeholders including organization who encouraging my vision as a common goal of everyone part of this "Mother Earth, Save Soil & Save the Future Generation"

I pride myself on being detail-oriented, analytical, and driven. I understand that women can achieve high levels regardless of the age the proof is me winning the prestigious Award.

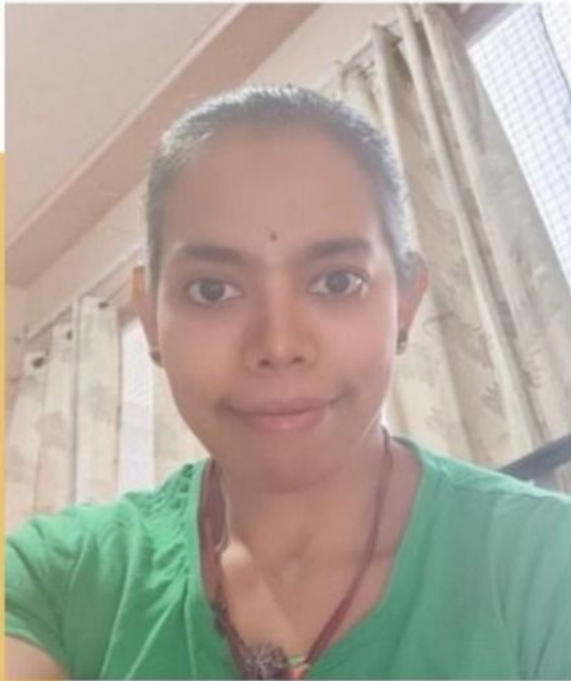

POONAM CHAUHAN

Achievement of my life When I was 13 years ,my father has passed in road accident. My mother was alone in my family. She taught me by running a small business. I became an electrical engineer, MSC. (value education), MA in English literature, Bed. I am a govt. teacher in S.R. N. Govt. Excellence school Khandwa Madhya Pradesh india I have been teaching for 20 years, specially for developing skills and moral values , communication skill master trainer of British council. I have completed british council course from Britain. I got an ISA

international school award at Chandigarh , IWTA Indian women talent Award , women leadership award 2022, India top 100 teacher award, Subhadra Kumari chauhan award. Mine fully interest in EDUCATION field using of all skills , good virtues , enhance students wisdom. Now a days for developing students skills , communication skills , using of technology , improving concentration power . Technology is the greatest tool for EDUCATION . I trained many students during pandemic through on line class , I arranged online teaching in my school You tube , face book, google meet , zoom , Microsoft team app, what up , Smart class. covid could not stop my breath of zeal for teaching. I continue taught to all my students during pandemic. I am teaching in rural area where students come from village. teachers are suffering from global learning crisis ,packed class room, financial problems, Poor Family back ground ,language problems ,but I taught them ,short out their problem restart their life. motivate and inspire them about their career. most of the time I do meditation , yoga ,Surya namaskar keeping my health fit. i am busy in social services like girls Education , azadi ka Amrit Mahotasav,plantation, national campaign. i inspire all the students for study ,my family always help me . I am very thankful to GLOBAL EMPIRE who is organizing national conference for women leaders forum. I wish, I may fulfill all acceptance . Thanks and regards KU. POONAM CHAUHAN

AARTHI PADMANABHAN

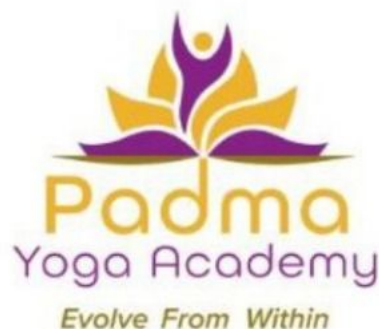

Padma Yoga has been a part of the wellness scene for many years and we offer Yoga in different forms and styles at all levels with the most experienced teachers around. PUSHKALA BADRINARAYAN

Dr. Pushkala Badrinarayan MS(Ayu), Ayurvedic Practitioner since 2005. A Gold medalist, winner of Scholarship and Best outgoing student award in UG. She was awarded internationally recognising her service in Autism and Infertility with Tamil Women Excellence 2022 Devi Mariamman Health Science Award on the occasion of Tamil Heritage 2022 by KailasaCANADA

Dr. Pushkala's love for Ayurveda is expressed in 3 ways – Treating, Teaching and Manufacturing

1. She has been treating women suffering from gynaecological problems like Infertility, PCOS, Endometriosis, Fibroids, Breast Fibroadenomas etc. She also caters to mental health by treating people suffering from Autism spectrum disorder, ADHD, Depression and OCD. She is helping people with Auto immune disorders and decreased immunity thus avoiding its recurrence and improving overall health. She has treated cases from India and Abroad. As a public service she also conducts

various health camps and cancer awareness programmes

2. Teaching authentic ayurveda to ensure it reaches the next generation of Ayurvedic doctors. She has been holding different positions in teaching being Lecturer to Professor and Head of Department for UG and PG studies. Teaching also continues by giving lectures as a guest speaker on webinars, Awareness Programs, and resource person in various National and International platforms for Ayurvedic students and for Public too. She has indulged in constant research too. In her efforts to bring awareness on Ayurveda, she has co-authored 2 Educational Books on Female Infertility and PCOS, Co Authored for a book on Infertility available on App store and published in 4 International Journals.

3. Formulating modern age, authentic Ayurvedic medicines and manufacturing the same with utmost care. "Best results are achieved by giving Best quality medicine". Keeping this as a driving force, she has been into preparation of medicine since 18 yrs. Her profound experience with teaching and practice of Ayurveda has laid the foundation for AMRUTHAKALA AYURVEDA, an Ayurvedic Pharmaceutical company in December 2020 and she has launched 5 products. The medicines launched are in use by many doctors since 14 yrs and are well appreciated.

LIVE HEALTHY WITH AYURVEDA

DR. SHIKHA TEJSWI

I believe in karma
Let your work speak!!!

Coming from a small town Dhanbad in Jharkhand, I always wished to come to Delhi being the capital city of India. If you have a dream, and you constantly work in the direction to fulfil your dream, you are sure to find the path which will lead you to reach there.

I worked for various law firms providing my services as a patent attorney, and then the pandemic hit India in 2020, giving us all an opportunity to work from home.

We have been the observers of a so called "worst period" for which no one was prepared. Most of us have lost our near and dear ones and I'm also an unfortunate sister to lose my guardian elder brother in the second phase of Covid in April 2021.

Throughout his life, he used to constantly motivate me to do something "big" but I was although not very happy with my job, but never had the confidence to start my own venture. "A new venture is always a risk". But sometimes you need to step a little back to jump the hurdle in front. This actually happened with me. In the same year, on October 18th, on my Bhai's birthday date, I launched my website TEJSWI IP.

Initially, took small portfolios for patent searching and drafting, we are now reaching to overseas and have our clients from some neighbouring jurisdictions too.

In 2020, I also got published my book 'BikhriAwaaz', a collection of 101 hindi poems which I had written as my part time hobby. One of the poem on the life of DashrathManjhi is also included in this book and this person is always an inspiration for me.

To start something new, it always need a lot of courage, consistency and calmness.

Today, while receiving this award, I feel more confident, motivated and energetic to reach higher.

Thank you for considering me for this award.

MANVI BHANDARI

"Self belief and hard work will always earn you success "

I started Gymnastics at the age of 4 , that time I was not aware that sports will become passion as well as my career . I am thankful and blessed having such wonderful parents who are my strong pillars . Whatever I am today is because of their hardwork,sacrifice, pain and unconditional support. I won many medals and awards at state, district and national level. Though it was very tough to cope up with studies but never give up is the attitude I always carry within myself. Many obstacles came but still il believe that obstacles are stepping stones.

"The greater The obstacles The more glory in overcoming it.

I always believe in myself and my positive attitude towards the situation which is greater than any obstacle or fear. With this belief and determination I became Gymnastics Coach with this aim that I have to produce players at international level representing our country, our pride "India". As representing India as a player was my dream but somehow couldn't made it. So my dream became my passion , now it's been 12years and so on in coaching field . I have produced 12 state ,15 district,8 national Medalist and 2 international player representing India at Asian championship and Dubai cup.

Although it was very tough to reach her but nothing is impossible as the word itself says I m possible. I got the opportunity to work with the India team representing Common wealth games and world championship 2018.

I always looked for acknowledgement and appreciation for my work on such a huge platform. Here , I got the opportunity for having one of the prestigious award on my shelf and today dream has come true.

Yes this is not the end goal but the beginning of the new journey. It has motivated me to do better and my best is yet to come.

Manvi Bhandari
Gymnastics Coach

MS. JUBY JOHN

Ms. Juby John is a professional architect, a project manager, a lean and green enthusiast, and an author. She has done her management studies at prestigious institutions like the Indian Institute of Technology (IIT), New Delhi (Project Management), and the Indian Institute of Management (IIM), Bangalore (Strategic Management). She is a registered member of many professional bodies including the Council of Architecture (COA), the Indian Institute of Architects (IIA), the Indian Institute of Interior Designers (IIID), the Institute for Lean Construction (ILCE), and also the Indian Green Building Council (IGBC). An experienced professional, she has been leading teams and projects for nearly two decades. An optimist to the core, she is a visionary who inspires and a

leader who engages from start to finish without missing a beat. She displays efficient leadership with apt planning and implementation and is an inspiration for many. Her experiences and the path that she had been walking all along finally led to the creation of her venture "Lean Interiors". Her well-wishers and their ongoing belief in her and her business inspire her to keep going strong! Ms. Juby John is also an adept author, whose articles are published on different platforms and newsletters. She trusts in making a better world by connecting, to create an empowered positive mindset, through her writings and communications.

A firm believer that nature is inspirational, she has a unique and interesting interpretation of the motivational and dominant role it can play in a person's personal and professional life. She believes that anyone can achieve their goals and dreams and hence has an instinct towards sharing her knowledge and empowering people. She is authoring a non-fictional, self-management book that will be published soon. Her upcoming book speaks volumes about how to accomplish this and more. She also has a series of books planned thereafter. Besides work, she loves to connect with the power of music, sketching, painting, or reading, which are all creative forces that enhance and reinforce positivity and improve well-being.
